On the Cover

Special thanks to Gary Allen for submitting this year’s cover photo. The photo shows Jack Parson, left, and Drew Allen, right, on a recent fishing trip, when Jack landed this cutthroat trout.

Highlights

These are only some of the changes made by the Utah Wildlife Board for 2006. Be sure to check the remainder of the 2006 Fishing Proclamation for the rules for the waters you plan to fish.

New 365-Day License: Beginning December 1, 2005, annual fishing licenses will be valid for 365 days from the date of purchase. For example, if you purchase your fishing license on December 10, 2005, it will expire on December 9, 2006. Reciprocal fishing permits also will be valid for 365 days from the date of purchase. Please note, however, that setline and second-pole permits are still annual permits that are good for a calendar year. For more information on all of these permits, see pages 5-7 of this proclamation.

One-Day Fishing Stamp: The one-day fishing stamp has been replaced with a one-day fishing license extension.

Reciprocal Fishing Stamps: Utah reciprocal fishing stamps have been replaced with reciprocal fishing permits.

Clarification of License and Permit Requirements on Interstate Waters: Bear Lake—Residents or nonresidents who possess a valid fishing or combination license from either Idaho or Utah can fish the entire lake.

Flaming Gorge—Residents or nonresidents possessing a valid fishing license from Utah or Wyoming may purchase a reciprocal fishing permit to fish the waters in the other state. For example, if a person possesses a resident or nonresident fishing license for Utah, they may purchase a Wyoming Flaming Gorge Reciprocal Fishing Stamp and fish the Wyoming portion of Flaming Gorge Reservoir.

Lake Powell—Arizona and Utah residents can purchase Lake Powell reciprocal fishing stamps and permits, but residents of all other states must purchase nonresident fishing licenses from the appropriate state to fish that state's waters. For example, if you're a resident of Colorado fishing the Utah portion of Lake Powell, you must purchase a Utah nonresident fishing license.

Changes at Flaming Gorge Reservoir: The lake trout limit is now eight (only one may exceed 28 inches), and is separate from limits on other trout and salmon. The limit for other trout and salmon is four fish in the aggregate (with no more than three kokanee salmon). All kokanee salmon caught September 10 through November 30 must be immediately released.

Stay Out and Stay Alive!

An abandoned mine may look like a ready-made adventure. Don't be fooled. More often than not an abandoned mine promises only injury or death. Cave-ins, toxic gases, dangerous snakes and other animals, deep vertical shafts and undetonated explosives can cost you your life. There are an estimated 20,000 abandoned mines scattered across Utah. If you come across one, heed our advice—stay out and stay alive!

Did You Know?

Campfires are the number-one source of human-caused wildland fire. Do Your Part—Don't Start Wildland Fire. For up-to-the-minute information on fire restrictions, go to www.utahfireinfo.gov, or call an office of the Utah Division of Forestry, Fire and State Lands.

Live Fish as Bait: Live fish cannot be used for bait in any waters in Utah.

Burbot: Burbot were illegally introduced into Flaming Gorge Reservoir. Anglers must keep and kill any burbot they catch. Burbot limit is 25.

License Suspension: The Utah Division of Wildlife Resources has the authority to suspend hunting and fishing privileges for wildlife violations if the Division deems that the violation was committed knowingly, intentionally or recklessly. Any person who is convicted of, pleads guilty to, no contest to, or enters a plea in abeyance to a wildlife violation may be subject to administrative suspension. Notification of such action is generally served only after criminal proceedings have been concluded. Any Utah order of suspension may be recognized in other states participating in the Wildlife Violator Compact.

Division Funding: The Utah Division of Wildlife Resources is funded by the sale of hunting and fishing licenses and through federal aid made possible through an excise tax on the sale of firearms and other hunting- and fishing-related equipment.

Protection from Discrimination: The Utah Division of Wildlife Resources receives federal financial assistance from the U.S. Fish and Wildlife Service. Under Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act of 1990, the Age Discrimination Act of 1975, Title IX of the Education Amendments of 1972, the U.S. Department of the Interior and its bureaus prohibit discrimination on the basis of race, color, national origin, age, disability or sex (in educational programs). If you believe that you have been discriminated against in any program, activity or facility, or if you desire further information please write to: The U.S. Fish and Wildlife Service, Office for Diversity and Civil Rights Programs-External Programs, 4040 North Fairfax Drive, Suite 130, Arlington, VA 22203.

Wildlife and Waterfowl Management Areas: The Division manages numerous wildlife and waterfowl management areas (WMAs) across the state. These areas are closed during certain times of the year to protect wildlife. Before visiting a WMA, please call the regional UDWR office in your area for closure dates.

Responsible OHV Use

While most OHV users are responsible, misuse results in disturbance to wildlife, damage to wildlife habitat and personal injury.

Responsible OHV use requires riders to avoid closed or restricted areas, respect wildlife and wildlife habitat, obey helmet regulations and observe OHV operator age restrictions and regulations. To help you protect your privilege, you can now log on to www.utahohv.org. On this new site, you can post questions, weigh in on current discussions, and represent your views to the rest of the OHV community. You can also find clubs and organizations, submit your photos, and learn ways to ensure access to wildlife on public land for future generations.

Log on to www.utahohv.org for maps, information, rider forums and more.

State of Utah
Division of Wildlife Resources
Proclamation of the Wildlife Board
for Taking
Fish and Crayfish
2006

I. PURPOSE AND AUTHORITY

R657-10-1

(1) Specific dates, areas, methods of take, requirements and other administrative details which may change annually are published herein.

(2) This proclamation expires December 31, 2006, unless modified or rescinded by the Wildlife Board or the director of the Division of Wildlife Resources.

II. DEFINITIONS

23-13-2 & R657-13-2

(1) "**Aggregate**" means the combined total of two or more species of fish or two or more size classes of fish which are covered by a limit distinction (i.e., trout and salmon in the aggregate).

(2) "**Angling**" means fishing with a rod, pole, tip-up, handline or troll board that has a single line with legal hooks, baits or lures attached to it, and is held in the hands of, or within sight of (not to exceed 100 feet), the person fishing.

(3)(a) "**Artificial fly**" means a fly made by the method known as fly tying.

(b) "Artificial fly" does not mean a weighted jig, lure, spinner, attractor blade or bait.

(4) "**Artificial lure**" means a device made of rubber, wood, metal, glass, fiber, feathers, hair or plastic with a hook or hooks attached. Artificial lures (including artificial flies) do not include fish eggs or other chemically treated or processed natural baits or any natural or human-made food, or any lures that have been treated with a natural or artificial fish attractant or feeding stimulant.

(5) "**Bag limit**" means the maximum limit, in number or amount, of protected wildlife that one person may legally take during one day.

(6) "**Bait**" means a digestible substance, including worms, cheese, salmon eggs, marshmallows or manufactured baits including human-made items that are chemically treated with food stuffs, chemical fish attractants or feeding stimulants. Legal baits are described in Section III.B.7. Bait.

(7) "**Chumming**" means dislodging or depositing in the water any substance not attached to a hook, line or trap, which may attract fish.

(8) (a) "**Domicile**" means the place:

(i) where an individual has a fixed permanent home and principal establishment;

(ii) to which the individual if absent, intends to return; and

(iii) in which the individual and the individual's family voluntarily reside, not for a special or temporary purpose, but with the intention of making a permanent home.

(b) To create a new domicile an individual must:

(i) abandon the old domicile; and

(ii) be able to prove that a new domicile has been established.

(9) "**Fishing**" means to take fish or crayfish by any means.

(10) "**Fishing contest**" means any organized event or gathering where anglers are awarded prizes, points or money for their catch.

(11) "**Float tube**" means an inflatable floating device less than 48 inches in any dimension, capable of supporting one person.

(12) "**Gaff**" means a spear or hook, with or without a handle, used for holding or lifting fish.

(13) "**Game fish**" means Bonneville cisco; bluegill; bullhead; channel catfish; crappie; green sunfish; largemouth bass; northern pike; Sacramento perch; smallmouth bass; striped bass; trout (rainbow, albino, cutthroat, brown, golden, brook, lake/mackinaw, kokanee salmon, and grayling or any hybrid of the foregoing); tiger muskellunge; walleye; white bass; whitefish; wiper; and yellow perch.

(14) "**Handline**" means a piece of line held in the hand and not attached to a pole used for taking fish or crayfish.

(15) "**Immediately released**" means that the fish should be quickly unhooked and released back into the water where caught. Fish that must be immediately released cannot be held on a stringer, or in a live well or any other container or restraining device.

(16) "**Lake**" means the standing water level existing at any time within a lake basin. Unless posted otherwise, a stream flowing inside or within the high water mark is not considered part of the lake.

(17) "**Length measurement**" means the greatest length between the tip of the head or snout and the tip of the caudal (tail) fin when the fin rays are squeezed together. Measurement is taken in a straight line and not over the curve of the body.

(18) "**Motor**" means an electric or internal combustion engine.

(19) "**Nongame fish**" means species of fish not listed as game fish. (See Subsection (13) and Section III.C. PROHIBITED FISH.)

(20) "**Nonresident**" means a person who does not qualify as a resident.

(21) "**Possession**" means actual or constructive possession.

(22) "**Possession limit**" means, for purposes of this proclamation only, one bag limit, including fish at home, in a cooler, camper, tent, freezer or any other place of storage.

(23) "**Protected aquatic wildlife**" means, for purposes of this proclamation only, all species of fish, crustaceans or amphibians.

(24) "**Reservoir**" means the standing water level existing at any time within a reservoir basin. Unless posted otherwise, a stream flowing inside or within the high water mark is not considered part of the reservoir.

(25)(a) "**Resident**" means a person who:

(i) has been domiciled in the state of Utah for six consecutive months immediately preceding the purchase of a license; and

(ii) does not claim residency for hunting, fishing, or trapping in any other state or country.

(b) A Utah resident retains Utah residency if that person leaves this state:

(i) to serve in the armed forces of the United States or for religious or educational purposes; and

(ii) complies with Subsection (a)(ii).

(c)(i) A member of the armed forces of the United States and dependents are residents for the purposes of this chapter as of the date the member reports for duty under assigned orders in the state if the member:

(A) is not on temporary duty in this state; and

(B) complies with Subsection (a)(ii).

(ii) A copy of the assignment orders must be presented to a wildlife Division office to verify the member's qualification as a resident.

(d) A nonresident attending an institution of higher learning in this state as a full-time student may qualify as a resident for purposes of this chapter if the person:

(i) has been present in this state for 60 consecutive days immediately preceding the purchase of the license; and (ii) complies with Subsection (a)(ii).

(e) A Utah resident license is invalid if a resident license for hunting, fishing or trapping is purchased in any other state or country.

(f) An absentee landowner paying property tax on land in Utah does not qualify as a resident.

(26) **"Second pole"** means fishing with one additional rod, pole, tip-up, handline or troll board that has a single line with legal hooks, bait or lures attached to it, and is held in the hands of, or within sight (not to exceed 100 feet) of the person fishing. (A valid fishing or combination license and second pole permit are required to use a second pole on selected waters).

(27) **"Setline"** means a line anchored to a non-moving object and not attached to a fishing pole.

(28) **"Single hook"** means a hook or multiple hooks having a common shank.

(29) **"Snagging"** or **"gaffing"** means to take a fish in a manner that the fish does not take the hook voluntarily into its mouth.

(30) **"Take"** means to:

(a) hunt, pursue, harass, catch, capture, possess, angle, seine, trap or kill any protected wildlife; or

(b) attempt any action referred to in Subsection (a).

(31) **"Tributary"** means a stream flowing into a larger stream, lake or reservoir.

(32)(a) **"Trout"** means species of the family Salmonidae, including rainbow, albino, cutthroat, brown, golden, brook, lake/mackinaw, kokanee salmon, and grayling or any hybrid of the foregoing.

(b) "Trout" does not include whitefish or Bonneville cisco.

(33) **"Underwater spearfishing"** means fishing by a person swimming or diving and using a mechanical device held in the hand which uses a rubber band, spring or pneumatic power to propel a spear to take fish.

(34) **"Waste"** means to abandon protected wildlife or to allow protected wildlife to spoil or to be used in a manner not normally associated with its beneficial use.

III. GENERAL PROVISIONS

This section sets forth general provisions of statute and rule that apply to taking fish and crayfish. Exceptions to these provisions are provided in Section V. PROVISIONS FOR SPECIFIC WATERS.

A. LICENSES AND PERMITS

1. License and Permit Requirements

23-19-1

(1) A person may not engage in fishing or seining protected wildlife or in the sale, trade or barter of protected wildlife or their parts without first having procured the necessary licenses, Certificates of Registration, permits and tags as provided under Title 23, Wildlife Resources Code, and having at the same time the licenses, Certificates of Registration, permits and tags on his or her person, except as provided in Sections (2) and (3).

(2) A person may not lend, transfer, sell, give or assign licenses, Certificates of Registration, permits, or tags belonging to the person or the rights granted by licenses, Certificates of Registration, permits or tags or use or attempt to use a license, Certificate of Registration, permit or tag of another person.

2. Free Fishing Day

23-19-1 & R657-13-3

A license is not required on free fishing day, Saturday, June 10, 2006. All other laws and rules apply.

3. Fishing License - Annual (365-day)

23-19-21 & R657-13-3

(1) A person (resident or nonresident) 14 years of age or older shall purchase a fishing license before engaging in any regulated fishing activity.

(2) A person under 14 years of age may fish without a license and take a full bag and possession limit.

4. Fishing License - Limited Number of Days

23-19-21

(1) A person (resident or nonresident) may purchase a license to fish:

(a) for one day;

(b) for seven consecutive days; or

(c) for 365 consecutive days from the date of sale.

(2) The effective dates shall be indicated on the license.

5. Fishing Contests

R657-13-4

(1)(a) A Certificate of Registration from the Division is required for fishing contests:

(i) with 50 or more contestants; or

(ii) any fishing contest offering \$500 or more in prizes.

(b)(i) Application for certificates of registration are available from Division offices and must be submitted at least 60 days prior to the date of the fishing contest.

(ii) The Division may take public comment before issuing a Certificate of Registration if, in the opinion of the Division, the proposed fishing contest has potential impacts to the public or substantially impacts a public fishery.

(c) A Certificate of Registration may cover more than one fishing contest.

(d) The Division may deny issuing a Certificate of Registration or impose stipulations or conditions on the issuance of the Certificate of Registration in order to achieve a management objective, to adequately protect a fishery or to offset impacts on a fishery or heavy uses of other public resources.

(e) A report must be filed with the Division within 30 days after the fishing contest is held. The information required shall be listed on the Certificate of Registration.

(f)(i) Only one fishing contest may be held on a given water at any time. Each fishing contest is restricted to being held on only one water at a time.

(ii) Fishing contests may not be held on a holiday weekend, state or federal holiday, or free fishing day, except as provided in Subsection (g).

(g) A fishing contest may be held on free fishing day and a Certificate of Registration is not required if:

(i) contestants are limited to persons 13 years of age or younger; and

(ii) less than \$500 are offered in prizes.

(h) A copy of proposed fishing contest rules must be submitted with the application for a Certificate of Registration. The proposed rules must include the final schedule of entry fees, prizes, and pay-out amounts to contestants.

(2) Fishing contests conducted for cold-water species of fish, such as trout, whitefish, and salmon may not be conducted:

(a) if the fishing contest offers \$500 or more in total prizes, or has more than 200 contestants, except on Flaming Gorge Reservoir and Echo Reservoir there is no limit to the amount that may be offered in prizes or the number of contestants;

(b) on those waters where the Wildlife Board has imposed special harvest rules, such as tackle restrictions, reduced limits, or size restrictions, or other exceptions to the general fishing regulations.

(i) The restrictions under Subsection (b) shall not apply to tournaments for non-salmonids if the non-salmonids are present in the same water.

(3) Contests for warm-water species of fish shall be conducted as follows:

(a) all contests as provided in Subsection (1)(a) must be:

(i) authorized by the Division through the issuance of a Certificate of Registration; and

(ii) carried out consistent with any requirements imposed by the Division;

(b) Fish brought in to be weighed or measured may not be released within mile of a marina, boat ramp, or other weigh-in site and must be released back into suitable habitat for that species; and

(c) If tournament rules allow larger or smaller fish to be entered in the contest than the size allowed for possession under the proclamation of the Wildlife Board for taking fish and crayfish, the fish must be weighed or measured immediately and released where they were caught.

6. Interstate Waters and Reciprocal Fishing Permits

R657-13-5

(1) Bear Lake

(a) The holder of a valid Utah or Idaho fishing or combination license may fish within both the Utah and Idaho boundaries of Bear Lake.

(b) Only one bag limit may be taken and held in possession even if licensed in both states. (See other Bear Lake provisions.)

(2) Reciprocal Fishing Permits

(a) The purchase of a reciprocal fishing permit allows a person to fish across state boundaries of interstate waters.

(b) Reciprocal fishing permits are offered for Lake Powell and Flaming Gorge Reservoir (See Subsections (3) and (4)).

(c) Utah residents may obtain reciprocal fishing permits by contacting the state of Arizona for Lake Powell and the state of Wyoming for Flaming Gorge.

(d) Nonresidents may obtain reciprocal fishing permits through the Division's Web site, from online license agents and Division offices.

(e) The reciprocal fishing permit must be:

(i) used in conjunction with a valid unexpired fishing or combination license from a reciprocating state; and

(ii) signed by the holder as the holder's name appears on the valid unexpired fishing or combination license from the reciprocating state.

(f) Reciprocal fishing permits are valid for 365 days from the date of purchase.

(g) Anglers are subject to the laws and rules of the state in which they are fishing.

(h) Only one bag limit may be taken and held in possession even if licensed in both states.

(3) Lake Powell Reservoir

(a) Any person qualifying as an Arizona resident and having in their possession a valid resident Arizona fishing license and a Utah reciprocal fishing permit for Lake Powell can fish within the Utah boundaries of Lake Powell.

(b) Any person who is not a resident of Utah or Arizona must purchase the appropriate nonresident licenses for Utah and Arizona to fish both sides of Lake Powell.

(c) Only Utah and Arizona residents are allowed to purchase reciprocal permits to fish both sides of Lake Powell.

(4) Flaming Gorge Reservoir

Any person possessing a valid Wyoming fishing license and a Utah reciprocal fishing permit for Flaming Gorge is permitted to fish within the Utah waters of Flaming Gorge Reservoir.

7. Fees

Residents

Combination license (12 years of age or older)	\$34
Annual (365-day) (14 years of age and under 65 years of age)	\$26
65 years of age or older	\$21
1-day (14 years of age or older)	\$8
7-days (14 years of age or older)	\$16

Nonresidents

Annual (365-day) (*14 years of age or older)	\$70
1 day (14 years of age or older)	\$12
7 days (14 years of age or older)	\$32

Reciprocal Fishing Permit (Nonresidents Only)

Flaming Gorge Reservoir (for use with Wyoming resident and nonresident license) \$10

Lake Powell (for use with Arizona resident license) \$8

Setline Permit (Residents & Nonresidents)

\$15

For use with a valid unexpired Utah one-day, seven-day or annual (365-day) fishing or combination license. Anglers under 14 years of age must purchase a valid Utah one-day, seven-day or annual (365-day) fishing or combination license, and Setline Permit in order to use a setline.

Second Pole Permit (Residents & Nonresidents)

\$15

For use on selected waters with any valid unexpired Utah one-day, seven-day or annual (365-day) fishing or combination license. Anglers under 14 years of age must purchase a valid Utah one-day, seven-day or annual (365-day) fishing or combination license and second pole permit in order to use a second pole.

8. Special Resident Licenses

23-19-36

(1) A resident who is blind, paraplegic or otherwise permanently disabled so as to be permanently confined to a wheelchair or the use of crutches, or who has lost either or both lower extremities, may receive a free license to fish upon furnishing satisfactory proof of this fact to the Division of Wildlife Resources.

(2) A resident who is a mentally retarded person and is not eligible under Section 23-19-14 to fish without a license may receive a free license to fish upon furnishing verification of mental retardation, as defined in Section 62A-5-101, from a physician.

(3) A resident who is terminally ill, and has less than five years to live, may receive a free license to fish:

(a) upon furnishing verification from a physician; and

(b) qualifies for assistance under any low income public assistance program administered by a state agency.

(4) A child placed in the custody of the state by a court order may receive a free fishing license upon furnishing verification of custody to the Division.

(5) Forms for special resident licenses are available at Division offices.

9. Duplicate License

R657-42

(1) If an unexpired license, permit, tag or Certificate of Registration is destroyed, lost or stolen, a person may obtain a duplicate from a Division office or online license agent for \$5 or half the price of the original license, permit, tag or Certificate of Registration, whichever is less.

(2) The Division may waive the fee for a duplicate unexpired license, permit, tag or Certificate of Registration provided the person did not receive the original license, permit, tag or Certificate of Registration.

(3) To obtain the duplicate license, permit, tag or Certificate of Registration, the applicant may be required to complete an affidavit testifying to such loss, destruction or theft.

10. Sales of Licenses Final

23-19-38

(1) Sales of all licenses, certificates or permits are final, and no refunds may be made by the Division, except as provided in Subsection (2) and Section III.12.

(2) The Division may refund the amount of the license, certificate or permit if:

(a) the Division or the Wildlife Board discontinues the activity for which the license, certificate or permit was obtained;

(b) the Division determines that it has erroneously collected a fee;

(c)(i) the person to whom the license, certificate or permit is issued becomes ill or suffers an injury that would preclude that person from being able to participate in the activity for which the license, certificate or permit was obtained;

- (ii) the person furnishes verification of illness or injury from a physician;
- (iii) the person does not actually participate in the activity for which the license, certificate or permit was obtained; and
- (iv) the license, certificate or permit is surrendered before the end of the season for which the permit was issued begins; or
- (d) the person to whom the license, certificate or permit is issued dies prior to that person being able to participate in the activity for which the license, certificate or permit was obtained.

11. Refunds for Armed Forces Members

23-19-38.2 & R657-42

(1) A member of the United States Armed Forces or public health or public safety organization who is mobilized or deployed on order in the interest of national defense or emergency and is precluded from participating in the hunting or fishing activity for which the person purchased a license, certificate, tag, or permit, may:

- (a) receive a refund from the Division; and
- (b) if the person has drawn a permit, have all opportunities to draw that permit in a future drawing reinstated.

(2)(a) An application for a refund may be obtained from any Division office.

(b) All refunds must be processed through the Salt Lake Division office.

(3) A person may receive a refund in accordance with Subsection (3) for a license, permit, or Certificate of Registration if that person was deployed or mobilized on or after September 11, 2001, in the interest of national defense or national emergency and is thereby completely precluded from participating in the hunting or fishing activity authorized by the license, permit or Certificate of Registration, provided:

(a) the refund request is made to the Division within one year of the end of the hunting or fishing season authorized by the license, permit or Certificate of Registration;

(b) the person surrenders the license, permit or Certificate of Registration to the Division, or signs an affidavit stating the license, permit or Certificate of Registration is no longer in the person's possession; and

(c) the person verifies that the deployment or mobilization completely precluded them from participating in the activity authorized by the license, permit or Certificate of Registration, except as provided in Subsection (4); and

(d) the person provides military orders, or a letter from an employment supervisor on official public health or public safety organization letterhead stating:

- (i) the branch of the United States Armed Forces, or name of the public health organization or public safety organization from which they were deployed or mobilized; and
- (ii) the nature and length of their duty while deployed or mobilized.

(4) The director may determine that a person deployed or mobilized did not have the opportunity to participate in the activity authorized by the license, permit or Certificate of Registration.

(5) The Division may reinstate a bonus point or preference point, whichever is applicable, and waive waiting periods, if applicable, when issuing a refund in accordance with Subsection (3).

12. Exhibit of License, Permit and Wildlife

23-20-25

Any person while engaged in any activity regulated under the Wildlife Resources Code, shall be required upon demand of any conservation officer or any other peace officer to exhibit:

- (1) the required license, permit or tag;
- (2) any device or apparatus in that person's possession used for any activity regulated under the Wildlife Resources Code; or
- (3) any wildlife in that person's possession.

B. FISHING METHODS

Game fish may only be taken by the following methods:

1. Angling

R657-13-6

(1) While angling, the angler shall be within sight of (not to exceed 100 feet), the equipment being used at all times, except set lines.

(2) Angling with more than one line is unlawful, except when fishing for crayfish without the use of fish hooks and on selected waters with a valid Second Pole Permit (see Section III.B.2., FISHING WITH A SECOND POLE). A Second Pole Permit is not required when fishing for crayfish with lines without hooks.

(3) No artificial lure may have more than three hooks.

(4) No line may have attached to it more than two baited hooks, two artificial flies, or two artificial lures, except for a setline or while fishing at Flaming Gorge Reservoir.

(5) When angling through the ice, the hole may not exceed 12 inches across the widest point, except at Bear Lake, Flaming Gorge Reservoir and Fish Lake where specific limitations apply. (See Section V. PROVISIONS FOR SPECIFIC WATERS.)

2. Fishing with a Second Pole

R657-13-7

(1) A person may use a second pole to take fish only in the following waters:

(a) Bear River from the Idaho state line downstream, including Cutler Reservoir and the outlet canals;

(b) D.M.A.D.;

(c) Flaming Gorge Reservoir;

(d) Gunlock Reservoir;

(e) Gunnison Bend;

(f) Hyrum Reservoir;

(g) Lake Powell;

(h) Little Bear River below Valley View Highway (SR-30);

(i) Malad River;

(j) Newton Reservoir;

(k) Pelican Lake;

(l) Pineview Reservoir;

(m) Starvation Reservoir;

(n) Utah Lake;

(o) Willard Bay Reservoir; and

(p) Yuba Reservoir.

(2)(a) A Second Pole Permit may be obtained for a \$15 fee through the Division's Web site, from online license agents and Division offices.

(b) A Second Pole Permit is required in addition to a valid Utah one-day, seven-day, or annual (365-day) fishing or combination license.

(c) A Second Pole Permit is an annual permit, but may only be used in conjunction with an unexpired Utah one-day, seven-day or annual (365-day) fishing or combination license.

(3) Anglers under 14 years of age must purchase a valid Utah one-day, seven-day or annual (365-day) fishing or combination license and Second Pole Permit in order to use a second pole.

(4) A Second Pole Permit shall only be used by the person to whom the Second Pole Permit was issued.

3. Setline Fishing

R657-13-8

(1) A person may use a setline to take fish only in the Bear River proper downstream from the Idaho state line, including Cutler Reservoir and outlet canals; Little Bear River below Valley View Highway (SR-30); Malad River; and Utah Lake.

(2)(a) Angling with one pole is permitted while setline fishing, except as provided in Subsection (b).

(b) A person who obtains a Second Pole Permit may fish with two poles while setline fishing.

(3) No more than one setline per angler may be used and it may not contain more than 15 hooks.

(4)(a) A Setline Permit may be obtained for a \$15 fee through the Division's Web site, from online license agents and Division offices.

(b) A Setline Permit is required in addition to a valid Utah one-day, seven-day or annual (365-day) fishing or combination license.

(c) A Setline Permit is an annual permit, but may only be used in conjunction with an unexpired Utah one-day, seven-day or annual (365-day) fishing or combination license.

(5) When fishing with a setline, the angler shall be within 100 yards of the surface or bank of the water being fished.

(6) A setline shall have one end attached to a nonmoving object, not attached to a fishing pole, and shall have attached a legible tag with the name, address and setline permit number of the angler.

(7) Anglers under 14 years of age must purchase a valid Utah one-day, seven-day or annual (365-day) fishing or combination license and setline permit in order to use a setline.

4. Underwater Spearfishing

R657-13-9

(1) Underwater spearfishing is permitted from official sunrise to official sunset.

(2) Use of artificial light is unlawful while underwater spearfishing.

(3) Causey Reservoir, Deer Creek Reservoir, Fish Lake, Flaming Gorge Reservoir, Joe's Valley Reservoir, Ken's Lake, Lake Powell, Lost Creek Reservoir, Red Fleet Reservoir, Steinaker Reservoir, Starvation Reservoir, and Willard Bay Reservoir are open to taking game fish by means of underwater spearfishing from June 1 through September 30, 2006. These are the only waters open to underwater spearfishing for game fish.

(4) Lake Powell is open to taking carp and striped bass by means of underwater spearfishing from January 1 through December 31, 2006 (See Section V. PROVISIONS FOR SPECIFIC WATERS, Lake Powell.).

(5) The bag and possession limit is two game fish. No more than one game fish greater than 20 inches may be taken, except at Flaming Gorge Reservoir. At Flaming Gorge Reservoir only one lake trout (mackinaw) greater than 28 inches may be taken. (See Section V. PROVISIONS FOR SPECIFIC WATERS.)

(6) Nongame fish may be taken by spearfishing only in the waters listed in Subsections (3) and (4) above and as provided in Section III.D. TAKING NONGAME FISH.

(7) Carp may be taken from any water open to angling during the open angling season.

5. Dipnetting

R657-13-10

(1) Hand-held dipnets may be used to take Bonneville cisco only at Bear Lake. (See Section V. PROVISIONS FOR SPECIFIC WATERS.)

(2) The opening of the dipnet may not exceed 18 inches.

(3) When dipnetting through the ice, the size of the hole is unrestricted.

6. Restrictions on Taking Fish and Crayfish

R657-13-11

(1) Artificial light is permitted, except when underwater spearfishing.

(2) A person may not obstruct a waterway, use any chemical, explosive, electricity, poison, crossbow, firearm, pellet gun or archery equipment to take fish or crayfish, except as provided in Section III.D. TAKING NONGAME FISH and Section V. PROVISIONS FOR SPECIFIC WATERS (Lake Powell).

(3) A person may not take protected aquatic wildlife by snagging or gaffing; however, a gaff may be used to land fish caught by lawful means, except at Flaming Gorge Reservoir and Fish Lake.

(4) Chumming is prohibited on all waters except Lake Powell (see Section V. PROVISIONS FOR SPECIFIC WATERS).

(5) The use of a float tube or a boat, with or without a motor, for fishing is unlawful on some waters. (See Section V. PROVISIONS FOR SPECIFIC WATERS.) Boaters should be aware that other agencies may have additional restrictions on the use of float tubes, boats or boats with motors on some waters.

(6) Nongame fish and crayfish may be taken only as provided in Section III.D. TAKING NONGAME FISH, and Section III.E. TAKING CRAYFISH.

7. Bait

R657-13-12

(1)(a) Fishing is permitted with any bait, except corn, hominy or live fish. Live fish can not be used for bait in any waters in the State of Utah.

(b) Possession or use of corn or hominy while fishing is unlawful.

(2) Use or possession of any bait while fishing on waters designated artificial fly and lure only is unlawful.

(3) Game fish or their parts may not be used, except for the following:

(a) Dead Bonneville cisco may be used as bait only in Bear Lake.

(b) Dead yellow perch may be used as bait only in: Deer Creek, Fish Lake, Echo, Gunnison, Hyrum, Johnson, Jordanelle, Mantua, Mill Meadow, Newton, Pineview, Rockport, Starvation, Utah Lake, and Willard Bay reservoirs.

(c) Dead white bass may be used as bait only in Utah Lake, and the Jordan River.

(d) Dead shad, from Lake Powell, may be used as bait only in Lake Powell. Shad must not be removed from the Glen Canyon National Recreation Area.

(e) The eggs of any species of fish, except prohibited fish, may be used as bait. However, eggs may not be taken or used from fish that are being released.

(4) Use of live crayfish for bait is legal only on the water where the crayfish is captured. It is unlawful to transport live crayfish away from the water where captured.

(5) Manufactured, human-made items that may not be digestible (e.g. rubber worms, plastic baits, sponge, etc.) that are chemically treated with food stuffs, chemical fish attractants, or feeding stimulants may not be used on waters where bait is prohibited.

C. Prohibited Fish

R657-13-13

(1) The following species of nongame fish are classified as prohibited and may not be taken or held in possession:

(a) Bonytail (*Gila elegans*)

(b) Bluehead sucker (*Catostomus discobolus*)

(c) Colorado pikeminnow (formerly, Colorado squawfish) (*Ptychocheilus lucius*)

(d) Flannelmouth sucker (*Catostomus latipinnis*)

(e) Gizzard shad (*Dorosoma cepedianum*)

(f) Grass carp (*Ctenopharyngodon idella*)

(g) Humpback chub (*Gila cypha*)

(h) June sucker (*Chasmistes liorus*)

(i) Least chub (*Lotichthys phlegethontis*)

(j) Leatherside chub (*Snyderichthys copei*)

(k) Razorback sucker (*Xyrauchen texanus*)

(l) Roundtail chub (*Gila robusta*)

(m) Virgin River chub (*Gila seminuda*)

(n) Virgin spinedace (*Lepidomeda mollispinis*)

(o) Woundfin (*Plagopterus argentissimus*)

(2) Any of these species taken while attempting to take other legal species shall be immediately released.

D. Taking Nongame Fish

R657-13-14

(1)(a) Except as provided in Subsections (b) and (c), a person possessing a valid Utah fishing or combination license may take nongame fish for personal, noncommercial purposes during the open fishing season set for the given body of water.

(b) A person may not take any species of fish designated as prohibited in Section III.C. PROHIBITED FISH.

(c) Nongame fish may not be taken in the following waters, except carp may be taken by angling, archery (excluding crossbows), spear or underwater spearfishing:

- (i) San Juan River;
- (ii) Colorado River;
- (iii) Green River (from confluence with Colorado River upstream to Colorado state line in Dinosaur National Monument);
- (iv) Green River (from Colorado state line in Brown's Park upstream to Flaming Gorge Dam, including Gorge Creek, a tributary entering the Green River at Little Hole);
- (v) White River (Uintah County);
- (vi) Duchesne River (from Myton SR-40 bridge) to confluence with Green River;
- (vii) Virgin River (Main stem, North and East Forks).
- (viii) Ash Creek;
- (ix) Beaver Dam Wash;
- (x) Fort Pierce Wash;
- (xi) La Verkin Creek;
- (xii) Santa Clara River (Pine Valley Reservoir downstream to the confluence with the Virgin River);
- (xiii) Diamond Fork;
- (xiv) Thistle Creek;
- (xv) Main Canyon Creek (tributary to Wallsburg Creek);
- (xvi) South Fork of Provo River (below Deer Creek Dam); and
- (xvii) Snake Valley waters (west and north of US-6 and that part of US-6 and US-50 in Millard and Juab counties).

(2) Nongame fish, EXCEPT those species listed in III.C. PROHIBITED FISH, may be taken by angling, traps, archery (excluding crossbows), liftnets, seine, spear or underwater spearfishing in the waters specified in Section III.B.4. UNDERWATER SPEARFISHING.

(3) Seines shall not exceed 10 feet in length or width.

(4) Cast nets must not exceed 10 feet in diameter (5-foot radius).

(5) Lawfully taken nongame fish shall be either released or killed immediately upon removing them from the water; however, they may not be abandoned on the shoreline.

E. Taking Crayfish

R657-13-15

(1) A person possessing a valid Utah fishing or combination license may take crayfish for personal, noncommercial purposes during the open fishing season set for the given body of water.

(2) Crayfish may be taken by hand or with a trap, liftnet, handline, pole or seine, provided that:

- (a) game fish or their parts, or any substance unlawful for angling, is not used for bait;
- (b) seines shall not exceed 10 feet in length or width;
- (c) no more than five lines are used, and no more than one line may have hooks attached (bait is tied to the line so that the crayfish grasps the bait with its claw); and
- (d) live crayfish are not transported from the body of water where taken.

F. Possession and Transportation

1. Dead Fish and Crayfish

R657-13-16 & 4-37-305

(1) Fish held in possession in the field or in transit shall be kept in such a manner that:

- (a) the species of fish can be readily identified;
- (b) the number of fish can be readily counted;

(c) the size of the fish can be readily measured when the fish are taken from waters where size limits apply and the fish taken from those waters may not be filleted and the heads or tails may not be removed; and

(d) fillets shall have attached sufficient skin to include the conspicuous markings so species may be identified.

(2) A legal limit of game fish or crayfish may accompany the holder of a valid fishing or combination license within Utah or when leaving Utah.

(3) A person may possess or transport a legal limit of game fish or crayfish for another person when accompanied by a donation letter. (See Section III.H.1. DONATING.)

(4) A person may not take more than one bag limit in any one-day or possess more than one bag limit of each species or species aggregate regardless of the number of days spent fishing.

(5) A person may possess or transport dead fish on a receipt from a registered commercial fee fishing installation, a private pond owner, or a short-term fishing event.

This receipt shall specify:

- (a) species and number of fish;
- (b) date caught;
- (c) the Certificate of Registration number of the installation, pond or short-term fishing event; and
- (d) the name, address and telephone number of the seller.

2. Live Fish and Crayfish

R657-13-17

(1) A person may not possess or transport live protected aquatic wildlife except as provided by the Wildlife Code or the rules and proclamation of the Wildlife Board.

(2) For purposes of this proclamation, a person may not transport live fish or crayfish away from the water where taken.

(3) This does not preclude the use of live fish stringers, live wells, or hold type cages as part of normal angling procedures while on the same water in which the fish or crayfish are taken.

3. Release of Aquatic Wildlife Unlawful

23-13-14

A person may not release any terrestrial or aquatic wildlife into the wild except as provided in the Wildlife Code. Any person who violates the provisions of this section is guilty of a class A misdemeanor.

4. Release of Tagged or Marked Fish

R657-13-18

Without prior authorization from the Division, a person may not:

- (1) tag, mark or fin-clip fish for the purpose of offering a prize or reward as part of a contest;
- (2) introduce a tagged, marked or fin-clipped fish into the water; or
- (3) tag, mark or fin-clip a fish and return it to the water.

G. Administrative Check Points

The Division monitors the taking and possession of wildlife, the required licenses, permits, tags and Certificates of Registration, and firearms, devices and equipment used for taking wildlife. Anglers should expect to encounter conservation officers or biologists checking people in the field, at checking stations and check points.

These contacts allow the Division to collect valuable information concerning wildlife populations and trends as well as helping to fulfill the Division's responsibility as trustee and custodian of wildlife.

H. Disposal of Aquatic Wildlife

23-20-9

1. Donating

(1) A person may donate protected wildlife or their parts to another person only at the following places:

- (a) the residence of the donor;
- (b) the residence of the person receiving protected wildlife or their parts;
- (c) a meat locker;

- (d) storage plant; or
 - (e) a meat processing facility.
- (2) A written statement of donation must be kept with the protected wildlife or parts showing:

- (a) the number and species of protected wildlife or parts donated;
- (b) the date of donation;
- (c) the license or permit number of the donor; and
- (d) the signature of the donor.

2. Purchasing or Selling

23-20-3

Except as otherwise provided in the Wildlife Code, rule, proclamation, or order of the Wildlife Board, a person may not purchase or sell protected aquatic wildlife or their parts.

3. Wasting

23-20-8

It is unlawful to waste or permit to be wasted or spoiled any protected wildlife or any part of them.

I. Aiding and Assisting

23-20-23

It is unlawful for any person to aid or assist any other person to violate any provision of the Wildlife Resources Code or rule promulgated under it.

J. Tribal Trust Lands

Sportsmen must observe tribal regulations concerning wildlife while on Tribal Trust lands.

K. Trespass

23-20-14

(1) While taking wildlife or engaging in wildlife related activities, a person may not:

- (a) without the permission of the owner or person in charge, enter upon privately owned land that is cultivated or properly posted;
- (b) refuse to immediately leave the private land if requested to do so by the owner or person in charge; or

- (c) obstruct any entrance or exit to private property.

(2) "Cultivated Land" means land which is readily identifiable as:

- (a) land whose soil is loosened or broken up for the raising of crops;
- (b) land used for the raising of crops; or
- (c) pasturage which is artificially irrigated.

(3) "Permission" means written authorization from the owner or person in charge to enter upon private land that is properly posted, and must include:

- (a) the signature of the owner or person in charge;
- (b) the name of the person being given permission;
- (c) the appropriate dates; and
- (d) a general description of the property.

(4) "Properly posted" means that "No Trespassing" signs or a minimum of 100 square inches of bright yellow, bright orange or fluorescent paint are displayed at all corners, fishing streams crossing property lines, roads, gates and rights-of-way entering the land. If metal fence posts are used, the entire exterior side must be painted.

(5) A person may not post:

- (a) private property he does not own or legally control; or
- (b) land that is open to the public as provided by Section 23-21-4.

(6) A person convicted of violating any provision of Subsection (1) may have his license, tag, Certificate of Registration or permit relating to the activity engaged in at the time of the violation, revoked by a hearing officer.

(7) A person may not take or permit his dog to take, while in violation of Subsection (1):

- (a) protected wildlife or their parts;
 - (b) an occupied nest of protected wildlife; or
 - (c) an egg of protected wildlife.
- (8) A person is guilty of a class B misdemeanor if he or she violates any provision of Subsection (1).

IV. SEASON DATES AND BAG AND POSSESSION LIMITS

R657-13-19 & 23-19-18

This section sets forth general provisions. Where a more localized and specific provision is given in Section V. PROVISIONS FOR SPECIFIC WATERS, the more specific provision takes precedence.

A. Closed Areas

(1) All waters of state fish rearing and spawning facilities are closed to fishing.

(2) State waterfowl management areas are closed to fishing except as posted or as listed under Section V. PROVISIONS FOR SPECIFIC WATERS.

B. Season Dates

The general season for taking fish and crayfish is January 1 through December 31, 2006, 24 hours each day.

C. Bag and Possession Limits

(1)(a) Trout, salmon and grayling that are not immediately released and are held in possession, dead or alive, are included in the person's bag and possession limit.

(b) Once a trout, salmon or grayling is held in or on a stringer, fish basket, livewell, or by any other device, a trout, salmon or grayling may not be released.

(2) A person may not fish in waters that have a specific bag or size limit while possessing fish in violation of that limit.

(3) Fish not meeting the size, bag or species provisions on specified waters shall be returned to the water immediately.

(4) A person may not take more than one bag limit in any one-day or have in possession more than one bag limit of each species or species aggregate regardless of the number of days spent fishing.

(5) A person (resident or nonresident) under 14 years of age may fish without a license and take a full bag and possession limit.

(6) The following bag and possession limits apply statewide, except as provided in Section V. PROVISIONS FOR SPECIFIC WATERS and Section III.B.4. UNDERWATER SPEARFISHING:

(a) *Bluegill and green sunfish in the aggregate	50 fish
(b) Bonneville cisco	30 fish
(c) *Brook trout	Bonus limit on some specific waters.
(d) Bullhead	24 fish
(e) Burbot	25 fish

Anglers may not release Burbot. All Burbot caught must be killed and included in the bag and possession limit.

(f) *Channel catfish	8 fish
(g) *Crappie	50 fish
(h) Crayfish	No Limit
(i) *Largemouth and smallmouth bass in the aggregate	6 fish
(j) Nongame species (except Prohibited Fish, page ?)	No Limit
(k) *Northern pike	6fish
(l) *Tiger muskellunge (hybrid)	1 fish over 40 inches
(m) Sacramento perch	10 fish
(n) Striped bass	No Limit
(o) *Trout, including salmon, grayling and hybrids in the aggregate, except no more than two shall be lake trout/mackinaw	4 fish

(p) *Walleye	6 fish
(q) *Whitefish	10 fish
(r) White bass	No Limit
(s) Wiper (hybrid white bass x striped bass)	6 fish
(t) *Yellow perch	20 fish

*On some waters, specific bag or size restrictions apply. (See Section V. PROVISIONS FOR SPECIFIC WATERS for variations.)

V. PROVISIONS FOR SPECIFIC WATERS

R657-13-20

(1) The provisions set forth in this section take precedence over general provisions. Seasons, bag limits and other restrictions stated herein apply only during the times and waters listed.

(2) General provisions apply to all waters NOT listed in this section.

(3) Section IV.C., BAG AND POSSESSION LIMITS, apply to the catch and harvest of fish not identified in the specific exceptions for the following waters.

THE FOLLOWING WATERS HAVE SPECIFIC EXCEPTIONS TO THE GENERAL PROVISIONS:

AMERICAN FORK CREEK (Utah County) (east from Utah Lake to I-15)

- CLOSED March 1 through 6 a.m. May 1.

ASHLEY CREEK (Uintah County) (Steinaker (Thornburg) diversion to the water treatment plant near the mouth of Ashley Gorge)

- ARTIFICIAL FLIES AND LURES ONLY.
- Trout limit 2.

ASPEN-MIRROR LAKE (Kane County)

- CLOSED January 1 through April 21.
- Fishing from a boat or a float tube is unlawful.

BADGER HOLLOW (Wasatch County) (See Strawberry Reservoir Tributaries)

BARNEY LAKE (Piute County)

- ARTIFICIAL FLIES AND LURES ONLY
- Trout limit 2

BEAR LAKE (Rich County)

- See Interstate Waters for license requirements
- Trout limit 2
- Cutthroat trout and trout with cutthroat markings with all fins intact must be immediately released. Only cutthroat trout that have had one or more healed fins clipped may be kept.
 - Cisco may be taken with a hand-held dipnet. Net opening may not exceed 18 inches in any dimension. When dipnetting through the ice, the size of the hole is unrestricted.
 - When ice fishing for fish other than cisco, the size of the hole may not exceed 18 inches
 - Anglers may keep foul hooked Bonneville cisco that are taken through normal, legal fishing activities.
 - A person may not possess a multipoint hook with a weight permanently or rigidly attached directly to the shank; or a weight suspended below any hook unless the hook is on an un-weighted dropper line that is at least three inches long.

BEAR LAKE TRIBUTARIES (Rich County)

(a) **Big Spring Creek from Lamborn Diversion (approximately 500 yards below SR-30) downstream to Bear Lake and that area from its mouth into the lake 2,000 feet, or as buoyed.**

- CLOSED April 15 through 6 a.m. the second Saturday of July (July 8).

(b) **Big Spring Creek from Lamborn Diversion (approximately 500 yards below SR-30) downstream to Bear Lake.**

- CATCH AND RELEASE ONLY, AND ARTIFICIAL FLIES AND LURES ONLY (January 1 through April 14 and from 6 a.m. the second Saturday of July (July 8) through December 31).

(c) **Swan Creek from the headwater spring downstream to Bear Lake and that area extending from the mouth out into the lake 2,000 feet, or as buoyed.**

- CLOSED April 15 through 6 a.m. the second Saturday of July (July 8).

(d) **Swan Creek from the headwater spring downstream to Bear Lake.**

- CATCH AND RELEASE ONLY, AND ARTIFICIAL FLIES AND LURES ONLY (January 1 through April 14 and from 6 a.m. the second Saturday of July (July 8) through December 31).

BEAVER CREEK (Cache County) (See Logan River)

BEAVER DAM RESERVOIR (BENCH'S POND) TRIBUTARIES (Sanpete County)

- CLOSED January 1 through 6 a.m. on the second Saturday of July (July 8).

BEAVER RIVER (Beaver County)(from Minersville Reservoir upstream to bridge at Greenville)

- CLOSED January 1 through 6 a.m. on the second Saturday of July (July 8).

BEER CREEK (Utah County)(Benjamin Slough, east from Utah Lake to I-15)

- CLOSED March 1 through 6 a.m. May 1.

BENCH'S POND TRIBUTARIES (Sanpete County)

- CLOSED January 1 through 6 a.m. on the second Saturday of July (July 8).

BICKNELL BOTTOMS (Fremont River) (Wayne County)

- OPEN to fishing, except when posted CLOSED.

BIG SPRING CREEK (Rich County)

- See Bear Lake Tributaries

BOULDER MOUNTAIN STREAMS AND LAKES

Creel Limits: (Wayne and Garfield counties) (including the Dixie National Forest; Teasdale and Escalante Ranger Districts: general locations known as the North Boulder Slope, East Boulder Slope, South Boulder Slope, Griffin Top, Boulder Top, Escalante Mountain; EXCEPT Pine Lake, Wide Hollow Reservoir and Lower Bowns Reservoir in Garfield County where statewide rules apply, and EXCEPT Dougherty Basin in Garfield County, where separate specific rules apply).

- Trout limit 4
- Only 2 trout over 14 inches
- Bonus limit of 4 brook trout (total limit of no more than 8 trout if at least 4 are brook trout)

Seasonal Restrictions: All Boulder Mountain lakes, ponds and reservoirs, EXCEPT Barker Reservoir, Garkane East Fork Impoundment, Garkane Main Impoundment, Lower Barker Reservoir, Lower Bowns Reservoir, North Creek Reservoir, Pine Lake, Posey Lake, Oak Creek Reservoir and Wide Hollow Reservoir (all in Garfield County); and Blind Lake, Coleman Reservoir, Cook Lake, Donkey Reservoir, Miller Lake and Pine Creek Reservoir (all in Wayne County), which are open year-round:

- CLOSED January 1 through April 21 and November 1 through December 31.

BOULGER RESERVOIR TRIBUTARIES (Sanpete County)

- ARTIFICIAL FLIES AND LURES ONLY
- CLOSED January 1 through 6 a.m. the second Saturday of July (July 8).
- Trout limit 2, when open.

BOUNTIFUL LAKE (Davis County)

- Limit 4 fish (Daily bag and possession limit is a total of 4 fish in the aggregate for all species. For example: 1 trout, 2 channel catfish and 1 bluegill.)

BROAD HOLLOW (Wasatch County) (See Strawberry Reservoir Tributaries)

BROUGH RESERVOIR (Uintah County)

- ARTIFICIAL FLIES AND LURES ONLY
- Trout limit 2

BROWN DUCK BASIN (Duchesne County)(Uinta Mountains - all streams in the Brown Duck Basin and the outlet of Clemments Reservoir to its confluence with Lake Fork Creek)

- CLOSED January 1 through 6 a.m. on the second Saturday of July (July 8).

BRYANTS FORK (Wasatch County) (See Strawberry Reservoir Tributaries)

BULLOCK RESERVOIR (Uintah County)

- Tiger muskie limit 1, all tiger muskies less than 40 inches must be immediately released.
- Unlawful to use whole fish or amphibians, including water dogs, for bait. Cut bait must not be larger than one inch in any dimension and no more than one piece per hook.

CANYON VIEW PARK POND (Utah County)

- Limit 4 fish (Daily bag and possession limit is a total of 4 fish in the aggregate for all species. For example: 1 trout, 2 channel catfish and 1 bluegill.)

CARBON COUNTY COMMUNITY FISHERY (Carbon County)

- Limit 4 fish (Daily bag and possession limit is a total of 4 fish in the aggregate for all species. For example: 1 trout, 2 channel catfish and 1 bluegill.)

CAUSEY RESERVOIR (Weber County)

- CLOSED to the possession of kokanee salmon with any red color from August 15 through September 29.

CAUSEY RESERVOIR TRIBUTARIES (Weber County)

(a) Wheat Grass Creek, including Dry Bread and Bear Hollow

- CLOSED January 1 through 6 a.m. on the second Saturday of July (July 8).
- CLOSED August 15 through September 29.

(b) Right and left forks of South Fork Ogden River

- ARTIFICIAL FLIES AND LURES ONLY
- Trout and salmon limit 2
- CLOSED August 15 through September 29.

CHICKEN CREEK Wasatch County (See Strawberry Reservoir Tributaries)

CHIPMAN CREEK Wasatch County (See Strawberry Reservoir Tributaries)

CLINTON POND (Davis County)

- Limit 4 fish (Daily bag and possession limit is a total of 4 fish in the aggregate for all species, for example: 1 trout, 2 channel catfish and 1 bluegill.)

- CLOSED to ice fishing.
- No boats with motors allowed.

CLYDE CREEK Wasatch County (See Strawberry Reservoir Tributaries)

CO-OP CREEK Wasatch County (See Strawberry Reservoir Tributaries)

COAL CANYON Wasatch County (See Strawberry Reservoir Tributaries)

COLORADO RIVER

- Channel catfish limit 24.
- Northern pike limit 12
- Species of threatened and endangered fish occur in the Colorado. See Section III.C.

Prohibited Fish

COMMUNITY FISHING WATERS

A. Box Elder County: Mayor's Pond and Pioneer Park Pond;

Cache County: Skylers Pond (West Willow Pond);

Carbon County: Carbon County Community Fishery and Gigliotti Pond

Davis County: Bountiful Lake, Clinton Pond, Farmington Pond, Jensen Park Pond (open to fishing - 8am, Monday September 4, 2006), Kaysville Ponds, and Maybey Pond;

Emery County: Green River State Park Golf Course Ponds and Huntington Game Farm Ponds;

Iron County: Parowan Pond;

Utah County: Canyon View Park Pond, Highland Glen Park Pond, Salem Pond, Spanish Oaks Reservoir, and Spring Lake.

Weber County: Glassman Pond, and Meadow Creek Pond

All Counties/Waters listed above under A.:

- Limit 4 fish (Daily bag and possession limit is a total of 4 fish in the aggregate for all species, for example: 1 trout, 2 channel catfish and 1 bluegill.)

B. Washington County: Skyline Drive Pond and Tawa Ponds

- Trout limit 2
- CLOSED to the possession of largemouth bass
- All largemouth bass must be immediately released

C. Washington County: Hurricane Pond

- Limit 4 fish, except prohibited fish as provided in Section III.C.(1), i.e. Virgin River chub (With the exception of any prohibited fish, the daily bag and possession limit is a total of 4 fish in the aggregate for all species, for example: 1 trout, 2 channel catfish and 1 bluegill.)

D. Salt Lake County: Kidney Pond, Midas Pond, Sunset Pond, and Willow Park Pond

- Limit 4 fish (Daily bag and possession limit is a total of 4 fish in the aggregate for all species, for example: 1 trout, 2 channel catfish and 1 bluegill.)
- Open to fishing only when the parks are open to the public.

COTTONWOOD RESERVOIR (Uintah County)

- Bass limit 6, only 1 may be over 15 inches.
- Tiger muskie limit 1, all tiger muskies less than 40 inches must be immediately released.
- Unlawful to use whole fish or amphibians, including water dogs, for bait. Cut bait must not be larger than one inch in any dimension and no more than one piece per hook.

COW HOLLOW (Wasatch County) (See Strawberry Reservoir Tributaries)

CURRENT CREEK (Wasatch County)(from Water Hollow Creek upstream to headwaters, including all tributaries to Current Creek Reservoir, but not the reservoir itself)

- ARTIFICIAL FLIES AND LURES ONLY
- Trout limit 2

DEER CREEK RESERVOIR (Wasatch County)

- Walleye limit 6, but only 1 (one) over 20 inches.
- Bass limit 6. All bass over 12 inches must be immediately released.
- Yellow perch limit 10. All yellow perch caught must be kept from January 1 through April 30.

DEER VALLEY LAKES (Wasatch County)

- ARTIFICIAL FLIES AND LURES ONLY.
- January 1 through September 30, CATCH AND RELEASE ONLY.
- October 1 through December 31, trout limit 2 under 16 inches.

DIAMOND FORK CREEK (INCLUDING ALL TRIBUTARIES) (Utah County) (from Springville Crossing to the headwaters)

- ARTIFICIAL FLIES AND LURES ONLY
- CLOSED to the possession of cutthroat trout or trout with cutthroat markings. All other trout species limit 4.

DOUGHERTY BASIN LAKE (Garfield County) (Boulder Mountain) (Lake and outflow from dam downstream 1/4 mile)

- ARTIFICIAL FLIES AND LURES ONLY
- CLOSED January 1 through 6 a.m. the second Saturday of July (July 8).

- ARTIFICIAL FLIES AND LURES ONLY.
- Only 2 trout may be cutthroat trout or trout with cutthroat markings.
- CLOSED January 1 through 6 a.m. on the second Saturday of July (July 8).

WEST WILLOW POND (Cache County) - See Skylers Pond

WHEELER CREEK (Weber County)

- CLOSED for approximately 1/4 mile from SR-39 to confluence with Ogden River.

WHITE RIVER (Uintah County)

- Channel catfish limit 24

WHITNEY RESERVOIR TRIBUTARIES (Summit County)

- CLOSED January 1 through 6 a.m. on the second Saturday of July (July 8).

WILLARD BAY RESERVOIR (Box Elder County)

- Possession of gizzard shad, dead or alive, is unlawful.

- Wiper (hybrid white bass x striped bass) limit 6
- Crappie limit 10
- Walleye limit 6; but only 1 over 20 inches

WILLARD BAY RESERVOIR INLET CHANNEL (Box Elder County)(From the buoyed start of the channel near the South Marina boat ramp up the channel to the second set of baffles. This does not include the South Marina proper or the normal boating channel out of the South Marina into the reservoir.)

- CLOSED March 1 through 6 a.m. on the last Saturday of April (April 29).
- Possession of gizzard shad, dead or alive, is unlawful.
- Crappie limit 10
- Walleye limit 6; but only 1 over 20 inches

WILLOW PARK POND (Salt Lake County, Murray City)

- Limit 4 fish (Daily bag and possession limit is a total of 4 fish in the aggregate for all species. For example: 1 trout, 2 channel catfish and 1 bluegill.)
- CLOSED to fishing when pond is ice covered.

WOLF CREEK (Duchesne and Wasatch counties)

- ARTIFICIAL FLIES AND LURES ONLY.
- Only 2 trout may be cutthroat trout or trout with cutthroat markings.
- CLOSED January 1 through 6 a.m. on the second Saturday of July (July 8).

YANKEE MEADOW RESERVOIR INLET (Iron County)

- CLOSED January 1 through 6 a.m. on the second Saturday of July (July 8).

YUBA RESERVOIR (SEVIER BRIDGE RESERVOIR) (Jaub and Sanpete counties)

- CLOSED to the possession of yellow perch.
- All yellow perch must be immediately released.

You Can Help Stop Illegal Fish Introductions

- Illegal fish stocking is costly to both you and the fisheries resources in Utah.
- Illegal fish stocking can upset the balance in fisheries, increase competition between species, reduce growth and reduce survival of desirable fish.
- Illegal stocking can mean the loss, maybe permanently, of valuable fisheries.
- Illegal stocking can introduce disease, like Whirling Disease, that can permanently affect fisheries.
- Illegal stocking has cost the Utah Division of Wildlife Resources and you, the license buyer, millions of dollars in rotenone treatments to remove illegally stocked fish that were unwanted and detrimental to an existing fishery.
- Moving any live fish or stocking them into the wild is illegal!
- The unlawful release of aquatic wildlife is a violation of Utah code section 23-13-14 and is punishable as a class A misdemeanor. A person charged with a class A misdemeanor can be fined up to \$2,500 and sentenced to a maximum of 1 year in prison.

WATERCRAFT RESTRICTIONS

Anglers should check with local, state, and federal agencies regarding all watercraft restrictions. The following lists are provided as information only and are not all inclusive.

Fishing from boats and float tubes is prohibited on the following waters:

1. Aspen-Mirror Lake (Kane County)
2. Duck Creek Springs Lake (Kane County)
3. Farmington Pond (Davis County)
4. Holmes Creek Reservoir (Davis County)
5. Pine Valley Reservoir (Washington County)
6. Settlement Canyon Reservoir (Tooele County)

Fishing from a boat with a motor of any kind is PROHIBITED on the following waters:

1. Anderson Meadow Reservoir (Beaver County)
2. Barney Lake (Monroe Mountain, Sevier County)
3. Bonnie Lake (Duchesne River drainage)
4. Boulder Mountain Lakes (Wayne and Garfield counties) (North Boulder Slope, East Boulder Slope, South Boulder Top, Griffin Top, and Escalante Mountain; EXCEPT Pine Lake, Wide Hollow Reservoir and Lower Bowns Reservoir in Garfield County)
5. Bud Lake (Duchesne County, Duchesne River drainage)
6. Burraston Ponds (Juab County)
7. Butterfly Lake (Duchesne County, Duchesne River drainage)
8. Clinton Pond (Davis County)
9. Duck Creek (Davis County)
10. Fairview Lakes (Sanpete County)
11. Foy Lake (San Juan County)
12. Green River (Flaming Gorge Dam downstream to Utah-Colorado state line)
13. Labaron Reservoir (Beaver County)
14. Lilly Lake (Summit County, Provo River drainage)
15. Little Dell Reservoir (Salt Lake County)
16. Little Reservoir (Beaver County)
17. Maple Lake (Utah County)
18. McClellan Reservoir (Utah County)
19. Monticello Lake (San Juan County)
20. Moosehorn Lake (Duchesne County, Duchesne River drainage)
21. Pass Lake (Duchesne County, Duchesne River drainage)
22. Payson Reservoir (Utah County)
23. Red Creek Reservoir (Utah County, near Payson)
24. Silver Lake Flat Reservoir (Utah County)
25. Spanish Oaks Reservoir (Utah County)
26. Teapot Lake (Summit County, Provo River drainage)
27. Tibble Fork Reservoir (Utah County)
28. Tony Grove Lake (Cache County)

Fishing from a boat with a gas engine is PROHIBITED (an electric motor may be used) on the following waters:

1. Grantsville Reservoir (Tooele County)
2. Ken's Lake (San Juan County)
3. Lost Lake (Wasatch/Summit counties, Provo River drainage)
4. Loyds Lake (South Creek Reservoir, San Juan County)
5. Mirror Lake (Duchesne County, Duchesne River drainage)
6. Palisade Lake (Sanpete County)
7. Trial Lake (Summit County, Provo River drainage)
8. Vernon Reservoir (Tooele County)

9. Washington Lake (Summit County, Provo River drainage) (Note: Tail Lake is considered part of Washington Lake when boating can be done without lifting or dragging the boat between the two lakes.)

Fishing from boats is prohibited but fishing from float tubes is allowed on the following waters:

1. Blanding Reservoirs #3 and #4 (San Juan County)

Operating a boat above a wakeless speed is prohibited on the following waters:

1. Causey Reservoir (Weber County)
2. Lost Creek (Morgan County)

Fish Consumption Advisories: What You Should Know

Five Utah fishing waters contain levels of mercury or other contaminants that exceed U.S. Environmental Protection Agency standards, based on recent findings. Fish consumption advisories have been issued for the following waters:

- Gunlock Reservoir (Washington County) – largemouth bass
- Silver Creek (Summit County) – trout
- Mill Creek (Grand County) – brown trout
- Lower Ashley Creek (Uintah County) – all fish
- Green River in Desolation Canyon – channel catfish

Between 2000 and 2005, fish were collected for mercury sampling from about 165 different sites in Utah. Most of these sites were on rivers and streams. As of November 2005, results were back from about 25 percent of the sites sampled.

Fish consumption advisories

Women who may become pregnant, pregnant women, nursing mothers and young children should not eat more than one 4-ounce serving per month from Gunlock, Silver Creek, Mill Creek or the Green River in Desolation Canyon. A 4-ounce serving of fish is about the size of a deck of cards.

Women who may become pregnant, pregnant women, nursing mothers and young children should not eat any fish from Ashley Creek.

Adults are also advised to limit their consumption. Adults should not eat more than two 8-ounce servings per month of largemouth bass from Gunlock; no more than two 8-ounce servings per month of trout from Silver Creek; no more than two 8-ounce servings per month of channel catfish from the Green River in Desolation Canyon; no more than three 8-ounce servings per month of brown trout from Mill Creek; and no more than 6 ounces per week from Ashley Creek.

Testing in 2006

Compared to other states, the number of fish consumption advisories in Utah is very low. Testing of rivers and streams in Utah will continue in 2006 and flat-water areas (reservoirs, lakes, etc.) in the state will receive more attention.

The latest information about fish consumption advisories in Utah is available on the Web at www.deq.utah.gov/issues/Mercury.

For more information about the health effects of mercury, please visit www.atsdr.cdc.gov/tfacts46.html.

HARVESTING FISH FOR BETTER MANAGEMENT

For years, sportsmen have heard that wildlife populations including some fisheries are over-harvested and anglers need to take fewer fish or in some cases release all the fish they catch. This is true on some waters, but on others natural reproduction is too successful; and fish become too abundant for the available habitat and food supply.

Lake Powell and Flaming Gorge are two examples of waters the Division of Wildlife Resources has talked about needing harvest of predatory fish for several years. Several years ago striped bass became too abundant for their food supply (threadfin shad) in Lake Powell. The striped bass would over-utilize the shad population — the majority of the stripers would get skinny and die. With fewer stripers the shad population would rebound, then steeper population would recover and the population boom and bust cycle would start all over again. In Flaming Gorge, the smallmouth bass and lake trout are too abundant for their main food supplies. Kokanee salmon numbers are down and not recovering like they have in the past.

Many of our walleye fisheries go through this same boom and bust food cycle between the predators (walleyes) and their food supply (Utah chubs, yellow perch). We see population cycles between yellow perch and walleyes in Yuba and Deer Creek reservoirs and recently had skinny, small walleyes in Starvation Reservoir when walleyes were eating all the annual hatch of Utah chubs.

Two years ago the Wildlife Board approved bonus limits on brook trout in the Uinta and Boulder mountains. The bonus limits were approved because in some lakes brook trout were too abundant. Without enough food their growth slowed or stopped and anglers were faced with a stunted brook trout population. If anglers will harvest small brook trout they can help improve the fishery by maintaining a balance between the fish population and the food supply. In some Boulder Mountain lakes, with the proper population balance, a fingerling brook trout can grow to 14 inches in one summer.

Lakes and reservoirs aren't the only places fish get out of balance with their habitat and food. For 2005, a portion of the Provo River will open to "General Statewide Fishing Regulations." This was done in an effort to allow anglers (including bait anglers) to harvest more brown trout. Growth has slowed because the brown trout are too abundant for their food supply. By harvesting more fish a balance can be maintained. These same population conditions apply on the Blacksmith Fork River near Hardware Ranch, the Ogden River between Ogden and Pineview Dam, and the Strawberry River below Soldier Creek Dam.

Anglers can assist the Division in meeting management goals and help maintain healthy fish populations by harvesting fish in the following locations — up to established limits.

Water/Area	Species	Limit	Comments
Flaming Gorge	Lake Trout	8	1 over 28 inches
Flaming Gorge	Smallmouth Bass	10	
Lake Powell	Striped Bass	No limit	
Lake Powell	Smallmouth Bass	20	
Lake Powell	Walleye	10	
Starvation Reservoir	Walleye	10	1 over 20 inches
Uinta Mountains	Brook Trout	8 trout	If at least 4 are brook trout
Boulder Mountains	Brook Trout	8 trout	If at least 4 are brook trout, only 2 over 14 inches
Ogden River	Brown Trout	4 fish	
Blacksmith Fork	Brown Trout	4 fish	
Provo River	Brown Trout	Varies	See Section V. Provisions for Specific Waters
Strawberry River (Soldier Creek Dam to Pinnacles)	Brown Trout	4 fish	Flies and lures only
Jordanelle Reservoir	Yellow Perch	50 fish	
Fish Lake	Yellow Perch	50 fish	
Utah Lake	White Bass	No limit	
Utah Lake	Walleye	6 fish	1 over 20 inches
Colorado River	Channel Catfish	24 fish	
Colorado River	Northern Pike	12 fish	
Green River (below Colorado Stateline)	Channel Catfish	24 fish	
Green River (below Colorado Stateline)	Northern Pike	12 fish	
Deer Creek Reservoir	Walleye	6 fish	1 over 20 inches

EXCERPTS FROM UTAH'S BOATING LAWS AND RULES

General Information

Utah's Boating Program aims to educate boaters about the laws and rules that promote public safety and protect our natural resources connected with boating activities in Utah. These efforts are funded through boat registration fees, a state tax on gasoline used in motorboats, and federal boating safety grants.

With an ever-increasing demand on Utah's limited number of lakes, reservoirs, and rivers, boaters have the responsibility to practice and advocate safe, courteous, and ethical use of our waterways. This responsibility includes learning and obeying the boating safety laws and rules, properly registering boats, being environmentally conscious, and sharing the waterways with boaters, swimmers, and anglers.

What is Considered a Vessel?

73-18-2(14)

According to the Utah Boating Act, a vessel (boat) is defined as every type of watercraft, other than a seaplane on the water, used or capable of being used as a means of transportation on water. Float tubes, "kick" boats, canoes, and inflatable rafts are considered boats under this definition.

Which Vessels are Required to be Registered and Numbered?

73-18-6 & 73-18-7

All motorboats, including those with electric motors, and sailboats must be registered and numbered.

Boats owned by Utah residents, but registered out-of-state, must also be registered in Utah if used on Utah waters. Properly registered boats owned by residents of another state may be used in Utah for 14 calendar days without being registered in Utah.

The registration certificate (card) must be on board the boat and available for inspection whenever the boat is in operation.

The bow number must be painted or permanently attached to each side of the forward half of the boat. Numbers and letters must be of a solid color and block design, at least three inches in height and read from left to right. The bow number must contrast with the background color of the hull and be legible from a distance of 150 feet. Spaces or hyphens, equal to the width of a letter, must separate letter groups from number groups. Inflatable vessels may place the bow numbers on backing plates that can be attached to the boat and displayed as described above. The bow number consists of the prefix letters UT, one to four numbers, and two suffix letters. For example: UT 2626 BP or UT-2628-BP.

The yearly registration decals are to be displayed three inches aft (towards the stern) of the bow number on each side of the boat. The month of expiration decals must be displayed immediately aft of the yearly registration decals.

What is the Minimum Age for a Motorboat Operator?

73-18-15.2

A person must be at least 16 years of age to operate a boat equipped with a motor (except for Personal Watercraft). A person under age 16 may operate a motorboat if a person 18 years of age or older is on board the boat.

Authority to Stop and Board Vessels

73-18-20

A law enforcement officer has the authority to stop and board any vessel to inspect the vessel for its required safety equipment, seaworthiness, and whether the vessel is either

overloaded or overpowered. If necessary, that officer may prohibit the launching or continued operation of the vessel.

The Utah Boating Act pertains to any waters within the territorial limits of the State of Utah.

Unless otherwise specified, any person who is convicted of a provision or rule under the Utah Boating Act is guilty of a class B misdemeanor. A class B misdemeanor is punishable with a fine of \$0 to \$1,000 and/or 0 to 6 months in jail.

What safety equipment is required to be on board a vessel?

Personal Flotation Devices (PFDs or Life Jackets)

73-18-8 & R651-215-11

You must carry at least one properly fitted U.S. Coast Guard approved Type I, II, III or V (if used according to the specifications on the approval label) PFD for each person on board the vessel.

Every person 12 years of age or younger must wear a U.S. Coast Guard approved PFD whenever they are on a vessel, except when they are inside the cabin area of a boat 19 feet or more in length.

- U.S. Coast Guard approved inflatable PFDs may not be used on rivers or by children.
- Vessels 16 feet and longer must also carry at least one U.S. Coast Guard approved Type IV PFD – Throwable Device.
- When on any river in Utah, each person on board a vessel must wear a U.S. Coast Guard approved PFD. PFDs may be loosened or removed by persons 13 years of age or older when they are on designated flat-water river sections.

River Sections Currently Designated as Flat Water

R651-215-12

On the Green River:

- From Red Creek Camp below Red Creek Rapids to the Indian Crossing Boat Ramp;
- From 100 yards below Taylor Flats Bridge to the Utah-Colorado state line in Browns Park;
- Within Dinosaur National Monument, from the mouth of Whirlpool Canyon to the head of Split Mountain Gorge;
- From the mouth of Split Mountain to Jack Creek in Desolation Canyon; and,
- From the Green River Diversion Dam below Gray Canyon to the confluence with the Colorado River.

On the Colorado River:

- From the Utah/Colorado state line to the Westwater Ranger Station;
- From Big Hole Canyon in Westwater Canyon to Onion Creek;
- From Drinks Canyon, mile 70, to the confluence with the Green River; and,
- After the last active rapid in Cataract Canyon.

On the San Juan River:

- After the last active rapid, prior to Lake Powell.

Fire Extinguishers

73-18-8(4)

All motorboats, unless exempt, must carry a U.S. Coast Guard approved Fire extinguisher. Outboard motorboats, of open-construction, less than 26 feet in length, without permanently installed fuel tanks or enclosed compartments are not required to carry fire extinguishers, however, it is recommended to carry one on board.

Navigation Lights

73-18-8(2)

All motorboats must display appropriate navigation lights while on Utah waters between sunset and sunrise. Manually propelled boats may use a white light, ready at hand, which can be displayed to prevent a collision with another boat.

Whistle or Horn

R651-219-1

All boats 16 feet or longer in length must have a horn or whistle capable of producing a four to six second blast of sound. It is recommended that vessels under 16 feet in length also carry a horn or whistle.

Bailing Device

R651-219-2

All vessels not of a self-bailing design must have a bail bucket or mechanical means for pumping the bilge.

Spare Propulsion

R651-219-3

Boats less than 21 feet in length must have on board at least one spare, paddle, oar or motor capable of maneuvering the boat.

Boat Capacity

73-18-8.1

It is illegal to load or power your boat in excess of the maximum capacity information stated on the United States Coast Guard capacity label or in the manufacturer's owners manual for the vessel. This includes a total weight of persons, motor, and gear, or the total number persons on board.

Other Equipment Recommended to be on Board

Flashlight, first aid kit, compass, boarding ladder, tool kit, extra line, spare spark plugs, spare bilge plugs, extra propellers, anchor, U.S. Coast Guard approved visual distress signals, additional PFDs, spare bailing bucket, VHF marine band radio, and a copy of the Navigation Rules etc.

Is there a "right of way" in the water?

73-18-15.1

Manually powered vessels usually have the "right of way" over motorboats. Motorboats should stay clear of manually powered vessels and should not create a wake that may cause

them trouble. Manually powered vessels must yield or "give-way" when overtaking (passing) motorboats and when a motorboat is at anchor.

In overtaking and passing situations, the boat being passed has the "right of way", and the passing boat is required to stay clear and "give-way." When two boats are crossing paths, the boat on the left must slow down and allow the other boat to pass. When meeting another boat head-on, stay to the right. In narrow channels, boats underway must stay to the right of the middle of the channel. On rivers, boats traveling downstream usually have the "right of way" over boats traveling upstream.

Is there a Speed Limit on the Water?

73-18-15.1(10)

The operator of any vessel may not exceed a wakeless (idle) speed when: within 150 feet of another boat, a person in or floating on the water, a water skier being towed by another boat, a shore angler, a launching ramp, a dock, or a designated swimming area; or in an area designated as a wakeless speed area.

Remember, the operator of a motorboat is responsible for any damage or injury caused by the wake produced by the operator's motorboat.

What is Wakeless Speed?

73-18-2(15)

A wakeless (idle) speed is an operating speed at which the vessel does not create or make a wake or white water trailing the vessel. This speed is not to exceed 5 mph.

Courtesy Docks

Courtesy docks are for your convenience. Be courteous to other boaters by leaving your boat there no longer than 15 minutes.

Boat Ramps

Boat ramps are for launching and retrieving only. Vehicles should be parked in designated parking areas and never left unattended on the launch ramp. Be ready to launch your boat before moving onto the ramp. Complete your launch quickly. When retrieving your boat, pull it away from the ramp before wiping it down and securing it for extended travel.

Emergency Situations

Emergency situations require advance planning. Think about what to do if someone falls overboard or if there is a fire, breakdown or collision. Practice putting on your PFD in the water. Practice throwing a Type IV PFD to a person in the water. Learn various distress signals such as slowly and repeatedly raising and lowering your outstretched arms. If your boat capsizes, it will usually float. Put on a PFD and stay with the boat for additional flotation and so you can easily be seen for a quick rescue.

Would you like additional boating information?

Contact Utah State Parks and Recreation to obtain a copy of the Highlights of Utah's Boating Laws and Rules pamphlet, a complete copy of Utah's Boating Laws and Rules, additional boating safety information, a home study boating safety course, or other boating safety classes at:

Salt Lake City, Utah 84114-6001

AQUATIC NUISANCE SPECIES IN UTAH

What are Aquatic Nuisance Species?

They are plants and animals that have become established in our natural waters that adversely affect the recreational, domestic or commercial values of the water.

Some species are especially tenacious and aggressive organisms that totally displace native organisms in an ecosystem. They also are especially hardy and often easily transferred from one body of water to another on boat trailers, muddy boots, vehicles and bait buckets.

Primary Threats In Utah

Utah already has several detrimental species that need to be contained and there are many potential invaders in other parts of the country that are of major concern:

Eurasian Watermilfoil: This plant has been found in Fish Lake and Otter Creek Reservoir. It grows in dense mats which interfere with boating and fishing activities and causes an imbalance in resident fish populations by harboring prey fish. It can regenerate from plant fragments that are transferred to new waters on boat trailers and in the live wells or bilges of boats.

Zebra Mussel: A miniature clam with stripes that was introduced into the Great Lakes from Europe. It does not currently occur in Utah but is slowly moving West. The primary mode of movement is on boat hulls and in their bilges and motor cooling systems.

Spiny Water Flea: A small, nearly microscopic crustacean from Australia was recently found in Willard Bay. Biologists fear that it will displace native zooplankton that are more edible to the small game fishes that rely heavily on them for food. This new arrival is very prolific and could change the food cycles in the reservoir dramatically—possibly to the detriment of the sport fisheries there.

[Note: also found in Lake Powell now]

New Zealand Mudsail: The New Zealand mudsnail is a miniature aquatic snail that has recently been found in several trout streams in Utah and throughout the West. Mudsnail densities of over 27,000 per square foot have been recorded in some Western streams. It is feared that such mudsnail densities will adversely affect critical food sources and the physical characteristics of our trout streams. They have been found in the Green, Logan, Little Bear, Bear and Provo Rivers. They are very hardy, capable of surviving several days out of water, reproduce asexually, and can flourish in most waters.

What Can You Do?

- Clean your boat and trailer, waders, and boots of all foreign material before leaving a body of water.
- Drain your bilges and live wells before leaving a water.
- Wash your boat with hot (120 degree F) water after boating on known zebra mussel infested waters.
- Never dump aquaria or water from other areas into a natural lake or stream.
- Never release fish or other aquatic organisms into lakes or streams. Even if devoid of recognizable life forms, there may be other undetectable microscopic organisms.
- Never clean fish and dump the refuse into waters from which they did not originate.

What You Can Do to Reduce the Spread of Whirling Disease

Thoroughly clean mud from all of your equipment (e.g. waders, boots, boat, boat trailer, anchors, etc.) before you go to another water to fish. This applies to moving above barriers and dams on the same water as well as going between drainages.

Do not clean fish from one stream reach or lake in another body of water or different area of the stream. Whirling disease spores from infected fish could be released into new areas this way. Adult fish that were infected with whirling disease after they had reached 5 to 6 inches may not show any head or body deformities indicating they are infected with whirling disease. If you clean your fish in the field, do it where you catch the fish. (Remember you have to leave enough skin or the head for species identification, and if you are in or going to an area with length limits, make sure you leave the head and tail on so officers can determine that the fish was legal.)

Do not transport live fish. It is illegal to transport or move live fish from one water to another — nor should they be moved upstream in the same drainage. A disease may be confined to the lower reach of a stream below a diversion or dam. By putting fish above the obstruction, you could move the disease into a new area.

If you observe fish stocking in public waters from a truck that is not marked as a Division of Wildlife Resources vehicle, contact your local conservation officer directly or call the poaching hotline at **1-800-662-3337** (*DEER, for some cellular users) as soon as possible. If you observe several fish with possible whirling disease symptoms (e.g. deformed head or spine, black tail or swimming in a whirling manner) call a Division of Wildlife Resources office.

CATCH-AND-RELEASE: INFORMATION AND TECHNIQUES

- Bait caught fish typically suffer a much higher hooking mortality than fish caught on flies and lures. At least 1 out of 3 fish caught with bait will die after release. Over 60% of deep hooked fish die. Cutting the line on deep hooked fish and not trying to remove the hook increases survival significantly. The major cause of hooking mortality is hooking injury itself. Most fish bleeding from being hooked, will not survive.
- Generally 9 out of 10 fish caught on flies or lures will survive after release. Studies have shown that there is only a 1-2% difference in the survival of fish caught on flies compared to those caught on lures.
- When fishing deep water (deeper than 30 feet) most fish caught cannot be released with any assurance that they will survive. Bringing fish up quickly causes blood chemistry changes as well as an expansion of the air bladder to many times its normal size, often causing it to protrude out of the fish's mouth. Keeping the fish in the water and quickly releasing it so it can get back down to deeper water helps some. Puncturing the swim bladder with a needle ("fizzing") does not improve survival. Some fish like lake trout can burp off the gases from the swim bladder when pulled up slowly. Most fish do not have this capability.
- Fish that are already stressed by warm water temperatures or low dissolved oxygen conditions cannot handle the added stress of being caught and most likely will not survive after being released. Some of Utah's low to mid-elevation reservoirs get warm during the summer. Some trout waters will have surface temperatures of 70-75 degrees. If you are catching fish in August when water temperatures are already marginal, don't plan on catching and releasing a lot of fish. Most released fish are probably not going to live to be caught another day.

How can you increase survival of fish you plan to release?

- If you plan to release fish, fish with flies or lures. Bending down the barbs on your hooks will make the release even easier. Replacing treble hooks with single hooks also makes the release easier.
- If a fish is hooked deep, cut your line. The hook will dissolve or come loose.
- Land the fish as quickly as possible. This is less tiring for the fish. If you're fishing in deep water it can be better to slowly bring the fish up to allow time to adjust to the pressure change.
- If possible, keep the fish in the water and use a pair of forceps or needle-nosed pliers to remove the hook.
- Handle the fish as little as possible, and wet your hands or towel before handling the fish. This helps maintain the protective slime coating on the fish.

Use Berkley power bait (and other cheese-type baits) on a single hook to reduce hooking mortality

Berkley Power Bait can be used on single hooks by using one of two simple methods:

1. Take a can of water and a few snelled hooks. Press enough Power Bait onto each hook to cover the entire hook. Place the baited hooks in the can of water to soak for a few minutes until you're ready to use. Soaking the hooks and Power Bait in the water allows the Power Bait to set up around the hook so you can cast without losing your bait and you don't need a treble hook. By using snelled hooks you can have some prepared and ready to go if you catch a fish or lose your bait. Just take the bare hook off and replace it easily with another pre-baited and soaked one; or
2. Keep your Power Bait chilled in your cooler and it will stick on a single hook allowing you to cast and fish. The cold Power Bait will adhere better to the single hook and you don't need those trebles.

Fishing Power Bait on single hooks allows you to more easily release fish. Also, if a fish swallows the hook and you cut the line, one hook will dissolve faster than three. Cutting the line and leaving the hook in the fish greatly increases survival over trying to remove those deep hooks and seriously injuring the fish. Some studies have shown that 60 – 95 percent of deep hooked fish die if the hook is removed while only 20 – 30 percent die if the hook is left in the fish.

See the Catch-and-Release information for more useful tips that will increase survival of fish you release.

\$1000 Reward

The Utah B.A.S.S. Federation (www.utahbass-federation.org) offers a \$1,000 reward to anyone who provides information leading to the arrest and conviction of someone who illegally stocks live bass in Utah.

To report violations, call the Help Stop Poaching hotline 1-800-662-DEER. Cell phone users may call, toll free, *DEER in some areas of Utah.

Please Don't Litter

Litter can be dangerous to wildlife. Please properly dispose of monofilament fishing line, styrofoam, plastic bags, six-pack holders and other plastics. Fish and other wildlife can be killed or injured if they become tangled or eat these products.

UTAH'S NATIVE AND NONNATIVE SPORT FISHES

Native Sport Fish

Mountain Whitefish

Light brown on the back and fins and silvery to white on the belly and sides. Snout and lower jaw are short and blunt, with a flap on each nostril.

Angling record: 1997, Wt.—4lb. 12oz.; L—21 1/2 in.; G—14 in.; Roy L. Montoya, Deer Creek Reservoir.

Catch-and-Release record: 11/28/97; 23 in; Justin C. Bond; Provo River.

Whitefish:

Bonneville whitefish and Bear Lake whitefish

These two fish are indistinguishable below 10 inches in length. The Bonneville whitefish have gray-blue spots along their sides.

These whitefish are elongate, relatively cylindrical fish. They are silvery-white along their sides grading into a charcoal gray to black on their backs. They have small delicate mouths that make them difficult to catch. Bonneville whitefish may reach four pounds and grow to 20 inches. Both species occur only in Bear Lake — nowhere else in the world.

Angling record: 1982, Wt.—4lb.-4 oz.; L—21 in.; G—13 3/4 in.; Deon Sparks; Bear Lake.

Catch-and-Release record: 12/04/00; 19 1/4 in.; Scott Tolentino; Bear Lake.

Bonneville Cisco

A diminutive fish found only in Bear Lake. The Bonneville cisco is a long, slender, pearly-silver fish that rarely grows beyond seven inches. It has a dusky blue back and a brassy band along its flanks at spawning time. The snout is sharply pointed. It is noted for its mid-winter spawning concentrations along a rocky beach on the east side of Bear Lake in mid-January where it is dip netted in large numbers. It is a prolific fish that is an important forage for the predatory species in Bear Lake.

Bear Lake Cutthroat Cutthroat Trout

Four sub-species evolved from the only trout native to Utah. Except for the Bear Lake cutthroat strain, cutthroats are best distinguished by their crimson slash along the lower jaw. They lack the iridescent pink stripe or the white tipped pelvic and anal fins of the rainbow trout.

Bonneville Cutthroat

The Bonneville cutthroat trout inhabited the Bonneville Basin and has sparsely scattered, large, and very distinctly round spots over the upper body, with few spots on or near the head. They are clothed in subdued colors of silver-gray to charcoal upper body with bronze coloration and subtle hues of pink on flanks during spawning. They, particularly the Bear Lake cutthroat strain, often lack the bright crimson jaw slash that, at times, may be yellow or gray. The deep orange pelvic and anal fins readily distinguish Bear Lake cutthroat from

Colorado River Cutthroat

rainbow trout.

The Colorado River cutthroat evolved in the Colorado/Green River drainages and is noted for its brilliant coloration. The males, in spawning condition, have bright crimson stripes along the sides and the stomach. Spotting is usually concentrated posteriorly.

Yellowstone cutthroat (not pictured) are native to Snake River drainages such as the Raft River Mountain area of northwest Utah and had been the predominant subspecies used in management programs throughout the state. It is lightly spotted with distinctly round spots concentrated toward the tail area. Today, the other native strains are becoming more extensively used in the sport-fisheries programs and are being re-introduced to many of their former habitats.

Angling record: 1930; 26lb.-12oz; Mrs. E. Smith; Strawberry Reservoir.

Catch-and-Release record: 05/09/04; 26 in; Ron Colby; Strawberry Reservoir.

Nonnative Sport Fish

Trout, Char & Salmon

Rainbow Trout

Colors vary greatly—with patterns depending on habitat, size, and maturity. Stream residents and migrant spawners are darker and have more intense colors than lake residents or nonspawners. Lake residents tend to be silvery. A mature rainbow is dark green to bluish on the back with silvery sides. The reddish horizontal band typifies the species. The belly may be white to silvery. Irregular black spots are usually present on the head, back and sides. The pelvic and anal fins are translucent pink to gray-green and tipped in white. Rainbow trout are heavily stocked in almost every coldwater drainage in Utah.

Angling record: 1979; Wt.—26lb.-2oz; Del Canty; Flaming Gorge Reservoir.

Catch-and-Release record: 12/30/00; 29 in; Enich Mockli; East Canyon Reservoir.

Lake Trout

This species of char has a background color of gray-brown, overlaid with light spots that vary in intensity with age and environment. The background color covers the back, sides, and fins and serves to highlight the lighter gray spots. Lake trout in large lakes are sometimes so silvery that the spots are difficult to see. Spotting is usually more intense on small fish. The caudal is deeply forked. The mouth is large and terminal with strong teeth on both jaws. They are present in Fish Lake, Bear Lake, and Flaming Gorge Reservoir.

Angling record: 1988; Wt.—51lb.-8oz.; L—45 1/8 in.; G—31 3/4 in.; Curt Bilbey; Flaming

Gorge Reservoir.

Catch-and-Release record: 07/09/98; 46 1/2 in.; Ray Johnson; Flaming Gorge.

Brook Trout

Exhibiting a wide range of colors, brook trout (another char) may be olive to blue-gray on the back to white on the belly. Red spots, usually with bluish halos around them, are present on the sides. Characteristic light wavy marks on the back are a distinguishing feature. Obvious white and then black stripe along the fore edge of each of the lower fins aids in separating brook trout from most other trouts. Caudal fin is square or lightly forked.

Angling record: 1971; Wt.—7lb. 8oz.; Milton Taft; Boulder Mountain.

Catch-and-Release record: 12/06/97; L—23 in.; Travis L. Clark; Boulder Mountain.

Arctic Grayling

Silvery to light purple colors on the sides and bluish-white on the belly are the distinctive colors of grayling. They are relatively slender and are most easily distinguished by their long, high, brilliantly colored, bright purple, sail-like dorsal fin.

Angling record: 1998; Wt.—1lb. 12oz.; L—17 1/4 in.; G—8 3/4 in.; Terry J. Fieldsted; Big

Dog

Lake—South Slope Uintas.

Catch-and-Release record: 07/17/99; 19 in; Russell Lee, Jr.; Uinta Mountains.

Kokanee Salmon

Kokanee are bright silvery fish with no definitive spotting pattern. Kokanee have a dark blue back with silvery sides.

As the spawning season approaches, kokanee turn from silver to orange to deep red and the male develops a characteristic hook-jaw common to the Pacific salmon. A deeply forked tail also distinguishes them from rainbow, cutthroat and brown trout. They are present in Flaming Gorge, Porcupine and Strawberry reservoirs.

Angling record: 1995; Wt.—6lbs.; L—25 in.; G—16 in.; Todd Chikaraishi; Strawberry

Reservoir.

Catch-and-Release record: 05/30/97; 23 3/4 in.; Lisa Johnson; Flaming Gorge.

Brown Trout

It is a very hardy trout that competes well with other fishes and endures marginal water qualities better than most trouts. It generally has golden brown hues with yellow under parts. The males during spawning are often brilliantly splashed with crimson spots circled with blue halos. Its upper body is usually profusely dappled with large, irregular, dark-chocolate spots. It is quite carnivorous and sports a stronger, sharper set of teeth than most trout. Brown trout often grow to considerable size.

Angling record: 1977; Wt.—33lb. 10oz.; L—40 in.; G—25 in.; Robert Bringhurst; Flaming Gorge Reservoir.

Catch-and-Release record: 05/26/01; 32 in.; Cody Mortensen; Jordanelle Reservoir.

Cool and Warm Water Fish

Walleye

Prominent "canine" teeth distinguish this big perch from its smaller cousin, the yellow perch. Color is brassy olive buff, sometimes shading to yellowish sides and white beneath. Large, dark blotch at rear base of the first dorsal fin and the lower lobe of tail is white-

tipped. The tail is moderately forked.

Angling record: 1991; Wt.—15lb. 9oz.; L—31 3/4 in.; G—20-3/4 in.; Jeffery Tanner; Provo River.

Catch-and-Release record: 04/04/02; 31 1/2 in.; Enich Mockli; Starvation Reservoir.

Yellow Perch

Yellow perch are yellowish with dark vertical bars. The caudal fin is forked, and the dorsal fin is

divided.

Angling record: 1984; Wt.—2lb. 11oz.; L—15 1/8 in.; Ray Johnson; Yuba Reservoir.

Catch-and-Release record: 03/04/00; L—15 1/4 in.; Brad Cutler; Yuba Reservoir.

Striped Bass

Coloration is bluish-black to dark grey, or olive-green above, the sides are silvery, the belly white. Striped bass have seven to nine unbroken stripes along each side. The body is somewhat streamlined. Mouth is oblique and the lower jaw longer than the upper. The dorsal fins are clearly separated. The caudal is forked.

Angling record: 1991; Wt.—48lb. 11oz.; L—45 in.; G—31 1/4 in.; Travis T. Jensen; Lake Powell.

Catch-and-Release record: 5/11/00; 32 1/2 in.; Marty Peterson; Lake Powell.

White Bass

Coloration on the back is grey or charcoal, green, with silvery sides and white belly. They

have five to seven longitudinal stripes on each side. The body is deeper and less streamlined than the striper. They are common in Utah Lake, where they dominate all other fishes.

Angling record: 1970; Wt.—4lb. 1oz.; John R. Welcker; Utah Lake

Catch-and-Release record: 06/24/01; 15 1/2 in.; Dave Bona; Utah Lake

Smallmouth Bass

The snout is long and bluntly pointed, the lower jaw slightly longer than the upper jaw. Smallmouth bass vary in color with habitat, but are normally dark olive/brown on the back—with the sides lighter and yellowish and the belly yellowish. There are 8 to 15 (average 9) dark vertical bars on the sides which distinguishes them from the largemouth

bass. Anterior dorsal fin has 10 spines, and is strongly joined to the soft dorsal. The anal fin has three spines.

Angling record: 1996; Wt.—7lb. 6oz.; L—22 in.; G—16-1/2 in.; Alan Iorg; Midview Reservoir (Lake Borham).

Catch-and-Release record: 07/04/03; 23 1/2 in.; Clifford Sackett Jr.; Jordanelle Res.

Largemouth Bass

Head is large and long. Mouth is large and terminal with upper jaw reaching past the center

of the eye in

adults. The upper parts of the body and head are greenish with a silvery or brassy luster. The belly is white to yellow. There is an irregular dark stripe along the sides. Eyes are brown.

Angling record: 1974; Wt.—10lb. 2oz.; L—24 1/4 in.; G—20 in.; Sam Lamanna; Lake Powell.

Catch-and-Release record: 03/29/98; 27 in.; Dennis Miller; Quail Lake.

Bullhead

Adults are blackish, dark olive, or dark brown on the back. Belly is greenish-white or bright yellow. They are common in many warm waters of Utah, and abundant in Utah Lake.

Angling record: 1999; Wt.—3lb. 4oz.; L—16 in.; G—13 in.; Jack Gilgen; Cutler Reservoir.

Catch-and-Release record: 06/15/97; 13 1/2 in.; Shawn Clement; Kaysville Ponds.

Channel Catfish

Distinguished from other catfishes by their long anal fin and deeply forked tail. The body is

pale bluish-olive above and bluish-white below. They usually have spots but lose them when older. Both dorsal and pectoral fins have strong, sharp spines. The mouth is short, wide and horizontal with chin and snout barbels.

Angling record: 1978; Wt.—32lb-8oz; L—39-3/4 in; G—22 in; LeRoy Mortenson; Utah Lake.

Catch-and-Release record: 04/08/03; 34 in.; Blair Peterson; Davis Community Pond.

Black Crappie

The black crappie has two closely-joined dorsal fins. Black crappie are silver-olive with numerous black or green splotches on the sides. Vertical bars, prominent in the young, are absent in adults. Sides are light, iridescent green to silvery. Belly is silvery to white. Pelvic fins are opaque with some black on the tips of the membranes, and pectoral fins are dusky and

transparent. It is fairly abundant in Utah lowland warm waters from Cache Valley to Lake Powell.

Angling record: 1993; Wt.—3lb. 2oz.; L—17-1/4 in.; G—14 in.; Mike Flickinger; Quail Creek Reservoir.

Catch and Release record: 07/06/01; 15 1/2 in.; Tyler Maynes; Quail Lake.

Green Sunfish

Green sunfish are brassy-green or blue-green on the back, sometimes with metallic-green flecks and

dusky bars on the sides. The flap over the gills is a dark color. This fish will strike at worms, bait or smaller artificial lures.

Angling record: 2003; 0 lb. 15.5 oz.; L-10 1/4 in.; G-10 in.; Sean Buchanan; Glassman Pond

Catch-and-Release record: 05/29/00; 10 1/2 in.; Jack Vincent; Pelican Lake.

Bluegill

Bluegill are shorter, deep-bodied fish, whose name comes from the dark flap over the gills. The body is olive-green with vertical bars, and some blue and orange may be present.

Bluegills can be caught by using worms or insects on a small hook, and will also take a small jig or fly.

Angling record: 1993; Wt.-2lb. 7oz.; L-11 1/2 in.; G-14 5/8 in.; Jack Rask; Mantua Reservoir.

Catch-and-Release record: 01/30/00; 11-1/4 in.; Lance Egan; Pelican Lake.

Northern Pike

Angling record: 2002; Wt.-25lb. 0oz.; L-43 1/2 in.; G-19 1/2 in.; Henry Fenning; Yuba Res.

Catch-and-Release record: 06/13/98; 49 3/4 in.; Logan Hacking; Lake Powell.

Hybrid Game Fish

Wiper

A hybrid cross between a female striped bass and male white bass. Its appearance is intermediate between the two parents. It has six to eight dark horizontal stripes over a silver-

white background with a dark charcoal to black back. It has two dorsal fins, the anterior

with 8-10 sharp spines. It is slightly heavier bodied than the striped bass and grows up to 12 pounds in weight and 24 inches in length. The wiper was recently introduced into Willard Bay.

Angling record: 2002; Wt.-6lb. 11oz.; L-26 in.; G-14 3/8 in.; Bret Felter; Willard Bay.

Catch-and-Release record: 05/15/01; 23 1/4 in.; Chad Chamberlain; Willard Bay.

Tiger Muskellunge

A hybrid cross between a muskellunge and northern pike with intermediate characteristics between the two parents. It has a very elongated torpedo-like body. Its most notable fea-

ture is the grey-green vertical bars along its sides. It thrives where there are good numbers of perch and sunfish for food. It can be expected to grow to 50-plus inches long and weigh more than 30 pounds.

Angling record: 2001; Wt.-31lb. 4oz.; L-48 3/8 in.; G-24 3/4 in.; Roger S. Klug; Pineview Reservoir.

Catch-and-Release record: 11/28/98; 53 1/4 in.; Ray Johnson; Pineview Reservoir.

Tiger Trout

Tiger trout, a cross between a brown trout and brook trout, has a unique, dark maze-like pattern all over a brownish, gray body. The belly is yellowish orange as are the pectoral, pelvic and anal fins. The tail fin is square.

Angling record: 1997; Wt.-5lb. 13oz.; L-23 in.; G-15 in.; Scott Tanner; Floating Island Lake.

Catch-and-Release record: 06/21/03; 20 in.; Trent Seegmiller; Huntington Reservoir.

Splake

A splake trout is the hybrid cross between lake trout and brook trout. It has a dark background with white spots. The tail fin is not as deeply forked as lake trout.

Angling record: 1999; Wt.—15lb. 4oz.; L—32 1/4 in.; G—21 3/4 in.; Mitchell Thomas Stewart; Fish Lake.

Catch-and-Release record: 08/12/99; 16 in.; Michael Richard Wakefield, Jr; Moon Lake.

Nongame Fish

Carp

An often undervalued sport and food fish. Deep, thick body color is gray to brassy green or yellowish green. The body is normally covered with large scales and carp have fleshy barbels on each side of the mouth. A large spine is present at the front of the dorsal (top) fin.

Use worms, dough balls, or other bait and fish on the bottom. Carp will give you a good fight, grow to a large size, and can be tasty when smoked. There's no limit on how many you can keep.

Angling record: 1993; Wt.—32lb.; Couger Elfervig; Lake Powell.

Catch-and-Release record: 09/02/03; 35 1/2 in.; Lance Egan; Starvation Reservoir.

Utah Sucker

This sucker is dark olive to copper, with dusky fins and a subterminal (on the bottom)

mouth. Suckers will take small worms and other baits. Utah suckers are very good smoked or bottled.

Angling record: 2003; Wt.—6 lb. 6 oz.; L—25 1/2 in.; G—13 1/4 in.; Jamin C. Buttars; Weber River

Catch-and-Release record: 01/17/03; 25 in.; Nate E. Conger; Weber River.

Utah Chub

Angling record: 1987; Wt.—1lb. 11oz.; L—13 1/4 in.; G—11 in.; Ray Johnson; Starvation Reservoir.

Catch-and-Release record: 06/21/97; 14-1/4 in.; Sue McGhie Troff; Flaming Gorge.

Species Not Illustrated

White Sucker

Angling record: 1992; Wt.—2lb-8oz; L—19-1/4 in; G—9-1/2 in; Ray Johnson; Flaming Gorge.

Catch-and-Release record: 4/26/97; 19 in; Kirk Ray Johnson; Flaming Gorge.

Sacramento Perch

Angling record: 1993; Wt.—4lb. 5oz.; L—17 in.; G—15 in.; Harlan G. Thomas; Garrison Res. (Pruess Lake).

Catch-and-Release record: 05/28/00; 15 in.; Lance Egan; Garrison Res. (Pruess Lake).

Albino Trout

Angling record: 1989; Wt.—9lb. 2oz.; L—24 3/4 in.; G—17in.; Nick Manning; Joe's Valley Res.

Catch-and-Release record: 11/21/97; 18 in.; David Curneal; Big Cottonwood Creek.

Golden Trout

Have an Idea For a Fishing Regulation Change? Share It with the DWR!

If you have suggestions for fishing regulation changes you'd like to see in Utah in 2007, share those suggestions with the DWR no later than June 1, 2006. You can supply your suggestions three ways:

1. E-mail your ideas to DWRComment@utah.gov
2. Mail your ideas to:
Sport Fisheries Coordinator
Division of Wildlife Resources
Box 146301
Salt Lake City, UT 84114-6301
3. Share your ideas at your Regional Advisory Council meeting in May. Meeting dates, times and locations are available at the DWR Web site at wildlife.utah.gov/public_meetings.

DWR fisheries biologists will finalize fishing recommendations for 2007 during the early summer of 2006. Please send or share your ideas before June 1 so the biologists have time to consider them.

The biologists will present their fishing recommendations for 2007 at RAC meetings held across Utah in September. You're encouraged to attend your regional meeting to learn more about the recommendations and to provide your comments about them. The input you provide will be taken to the Utah Wildlife Board when it meets in the fall to approve Utah's 2007 Fishing Guide.

UTAH'S ENDANGERED FISHES

June Sucker

The June sucker occurs in Utah Lake and the Provo River. Although once abundant in Utah Lake, it is now rare. The June sucker is listed as endangered, and efforts to help recover the June sucker population are on-going. Although June suckers are members of the sucker family, they are not bottom feeders. The jaw structure of the June sucker allows the species to feed on zooplankton in the middle of the water column.

Bonytail

© Joseph R. Tomelleri

The bonytail (*Gila elegans*) is currently found in limited stretches of the Green and Colorado mainstem rivers where the species is stocked by the Upper Colorado River Recovery Program. The species is endangered and, if caught, should be returned immediately to the water unharmed. The body is highly streamlined and a bluish, dusky color above to pale below. The head is short and noticeably concave. The bonytail has a very slender caudal peduncle and can reach lengths of 22 inches and weights of over two pounds in the wild.

Colorado Pikeminnow

© Joseph R. Tomelleri

The Colorado pikeminnow (*Ptychocheilus lucius*) is found predominantly in the Green, Colorado, and San Juan rivers. The highly predacious pikeminnow has also been found in tributaries to these mainstem rivers, likely in an effort to spawn. The pikeminnow is an endangered species and efforts are underway to protect the fish throughout its native range. The pikeminnow's body is long and slender with a gray-green back and silver sides. The head is long and conical with a large, horizontal mouth. The dorsal fin originates behind the origin of the pelvic fins. The tail fin is large and deeply forked. The pikeminnow can reach lengths up to six feet and 80 pounds and should be returned to the water immediately if caught.

Humpback Chub

© Joseph R. Tomelleri

The humpback chub (*Gila cypha*) is found in canyon-bound habitats of the Green and Colorado rivers. The species is probably the strangest-looking of the "big-river," endangered fishes due to the fatty nuchal hump that is thought to keep the fish on the stream-bottom and, therefore, stabilize the fish in fast, flowing waters. The humpback chub has a stream-lined body with a dark, olive-gray back and silver sides. The head is small. The caudal peduncle is slender, though thicker than the bonytail's. The humpback chub can reach lengths up to 18 inches and weights of up to two pounds.

Razorback Sucker

© Joseph R. Tomelleri

The razorback sucker (*Xyrauchen texanus*) is found in the mainstem Green, Colorado, and San Juan rivers. Razorback suckers prefer shallow, off-channel habitats for spawning in the springtime. The razorback sucker is endangered and is stocked in many portions of its native range, including Utah, by the Upper Colorado River Recovery Program. The species normally has an olive-colored to brown or black back, brown to pinkish sides, and a white to yellow belly. Adults have a sharp-edged keel or "humpback." The mouth faces downward and the lower lip is widely separated into two lobes by a deep groove. The razorback sucker can reach lengths up to 36 inches and weights of up to 13 pounds.
